## **Report of the BOARD OF SELECTMEN**

Calendar year 2020 has been memorable due to Covid19 and all the ways it impacted the Town as a whole and the residents individually. Many of the impacts will be reported in our summary as well as the reports of the individual Departments, Boards and Committees. Federal and State requirements and guidance have been many, diverse, and confusing. We have all experienced remote, electronic meetings via Zoom or similar programs. The necessity to wear masks has become part of our daily lives as we waited for the development and deployment of a Covid19 vaccine.

Meanwhile, life and Town activities continue. In May, Norm Hills was reelected to another three years as Selectman. This year saw the retirements of Chief of Police John Garcia, Nurse Kathy Downey, and Health Agent Karen Wallaga. Their replacements were Chief of Police Richard Nighelli, Nurse Lori Desmarais, and Health Agent David Flaherty Jr.

Significant events of the year include:

### **NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMIT**

Work on the Waste Water Treatment Plant (WWTP) started this year with a two-phase approach; first work was focused on the physical changes to the plant equipment. This included in ground installation of new piping and valving to control the flow of effluent to and from the lagoons. A second ultraviolet purification channel was installed as well as upgrades to the disc filter system. Associated electrical and electronic equipment was installed for the new equipment.

As the installation work was completing, focus changed to lowering the level of lagoon #1 and the removal of waste activated sludge that has been accumulating over the years. The initial estimate of sludge to remove was 350 tons. As the work progressed it became evident that there was far more sludge to remove. To fund the continued sludge removal, a change order was issued to reappropriate the money originally budgeted for lining lagoon #1. That money was expended for the removal of a total of 990 tons of sludge and more sludge still remains. We thus will have to go back to Town Meeting in 2021 for approval for funding to remove the remaining sludge. Concurrently we are still working with Representative Straus to obtain some or all of the \$2M available in the Environmental Bond Bill.

The regionalization concept of connecting to the Wareham Waste Treatment plant continues to be investigated, but has slowed due to the need to determine another route for constructing a new outfall for the discharge of effluent to the proximity of the Cape Cod Canal.

The preparation of Marion's Comprehensive Wastewater Management Plan (CWMP) also was impacted by Covid19 and now is not expected to be complete until late 2021. Several public hearings will be scheduled for the public to provide input while the report is still in draft form.

### **CARVER MARION WAREHAM REGIONAL REFUSE DISPOSAL DISTRICT (CMWRRDD)**

After voting last year to cease operations on December 31, 2020, the first three months of 2020 were used to draft a revised CMWRRDD Agreement to document how operations would be suspended while maintaining a skeletal entity for managing the long-term liabilities. This revised agreement was provided to the three towns for them for approval at their Town Meetings.

Marion voted to approve it at our Town Meeting in June 2020. Covid19 delayed the Wareham and Carver Town Meetings until late fall. During this delay, these town's Select Boards decided they did not want to cease operations, which resulted in them not even bringing this revised agreement to their Town Meetings for approval.

As a result, Marion exited the CMWRRDD on December 31, 2020 and the Benson Brook Transfer Station was deeded back to Marion. Marion intends to run the Benson Brook Transfer Station for Marion and Rochester residents two days a week. At the end of one year, we will reevaluate its financial feasibility. Our goal is to have it break even based on stickers sold, so its operations are funded only by those who use it.

### **TOWN HOUSE**

Work to install a new roof, reconstruct the existing windows, repair/replace the existing fascia board and trim, and replace the clapboard siding on the oldest section of the building was completed. Much of this work was paid for by Community Preservation Committee funds.

The Sippican Historical Society established a fund to support the renovation of a new ADA compliant front entrance of the Town House including relandscaping. This work started in September 2020. The SHS also funded a new roof on the rear annex of the Town House.

We are evaluating funding options for new siding and windows for the rear annex. When that work is complete, we will have renovated the entire exterior of the Town House without borrowing any money.

### **ATLANTIS DRIVE FACILITY**

Marion issued a Request for Proposal for the sale of the Atlantis Drive facility. One bid was received and accepted. The closing for the building was completed on August 5 and the Marion Antique Shop took possession of the building.

### **TOWN RECORDS MANAGEMENT**

Document experts from King Information Systems, Inc. were onsite at Sippican School going through all of the Town records to develop an organized inventory of documents required by the State and those of historical importance. Everything, which did not meet legal retention requirements, was destroyed. We now have an electronic record identifying every document saved and where each one is stored. While this may not be the most exciting event to report, we can't overstate what a giant step forward this is for the Town.

### **COMPLETE STREETS**

The Planning Board's Transportation and Circulation Task Force (TCTF) applied for two potential grants for road/sidewalk/bicycle improvements on Spring Street between Route 6 and Ryders Lane. We were unsuccessful with both applications.

The Southeast Regional Planning and Economic Development District (SRPEDD) completed the Route 6 Corridor Study for the road from Fairhaven to Wareham. Covid19 impacted our pursuit of this project for most of the year. We are coordinating a meeting with MassDOT for early in 2021.

## **MUNICIPAL VULNERABILITY PREPAREDNESS (MVP)**

The Creek Road pump station is in dire need of renovation/replacement. Unfortunately, this project was put on a side burner pending more clarity on the cost and funding sources for the WWTP lagoon #1 project. Marion received a grant to fund the design/bid part of this project and this work was assigned to the engineering firm, Weston Sampson. Marion also will seek grant money to fund the actual construction. Even if we are successful with obtaining a grant, the grant will likely require Marion to come up with funding for 25% of the cost of the project.

## **STORMWATER MANAGEMENT**

The Buzzards Bay Natural Estuary Program working with Mass Maritime students has been working gathering all of the dry weather and wet weather testing of the numerous outlets in town.

## **CAPPED LANDFILL SOLAR ARRAY**

The Energy Management Committee identified an opportunity to participate in the Cape and Vineyard Electric Cooperative (CVEC) solar project. The CVEC issued a request for proposal for solar array construction as part of a multi-town project. Several successful bids resulted, CVEC issued an award to DSD, Inc., and we currently are in contract negotiations. The project's success will hinge on the contractor's successful interconnection with Eversource. We hope, if the contract is executed, that construction will begin in 2021.

## **PAVEMENT MANAGEMENT**

Marion's new five-year pavement management plan has been developed to help us prioritize road repairs and maintenance in our community. This information will be used to develop a rolling five-year plan for road maintenance.

## **COVID19**

Covid19 has impacted us collectively and individually. At the beginning of the emergency, Marion activated our Emergency Management Team to evaluate the situation and determine actions on our part. Initially these were daily meetings, then two times a week and eventually once a week. The meetings reviewed the status of our supplies, the status of our employees, how many residents had tested positive and their condition, status of all school students, how Tabor Academy was scheduling and testing students, and took any actions that we deemed appropriate to protect the health and safety of Marion's residents.

Early on, we recognized that mass vaccination would be required at some point. To prepare for that eventuality, we set up a Fall drive-through flu vaccination clinic as a dry run preparation for the actual Covid19 vaccination process. It worked well and identified areas that could be improved in anticipation of the Covid19 vaccination. Late in the year we volunteered to be the site to vaccinate the first responders in Marion, Mattapoisett, Rochester and Wareham as further practice for vaccinating our residents.

## **CONCLUSION**

The Selectmen thank the employees, elected officials, and appointed volunteers for their hard work making Marion a wonderful place to live. We intend to continue working with Marion's residents to address the challenging issues which the Town faces so we will continue to be proud of living here.

Randy L. Parker, Chairman  
John P. Waterman, Vice-Chairman  
Norman A. Hills, Clerk

**Report of the  
TOWN ADMINISTRATOR**

To the residents of the Town of Marion:

I am pleased and honored to submit my second Annual Report as Marion's Town Administrator.

Nearly all of 2020 was dominated by the COVID-19 pandemic, and I consider it to be the most challenging in my years working in management.

I would like to take this opportunity to thank the Board of Selectmen, Board of Health, our outstanding Emergency Management team, and former Police Chief John Garcia for their support in our efforts to keep the members of the community safe during this public health emergency.

I also want thank the residents and visitors for their cooperation and patience as we've had to adapt to the closure of Town buildings, social distanced Town Meetings, remote meetings of Boards and Committees, and limited "in-person" access to staff.

During the spring we were able to begin some much needed repairs and renovations to the Town House and due to a generous donation from the Sippican Historical Society, the renovations will continue. Thank you to the Sippican Historical Society.

Good communication remains a priority to me. Should you have a concern or an issue to discuss, please call my office or contact me by email and I'll make every effort to work with you to resolve the matter.

Respectfully submitted,

James P. McGrail, Town Administrator

# **Report of the BOARD OF ASSESSORS**

To the Honorable Board of Selectmen:

As mandated by State Law, the major responsibilities of the Board in Fiscal Year 2020 were to manage the valuation and assessment of all real and personal property for *ad valorem* tax purposes, to set the tax rate, act upon applications for abatements, place value on new construction, and commit motor vehicle and boat excise taxes.

A single tax rate for all classes of property was set at \$11.70 per \$1,000 of valuation.

The following information is a recapitulation of the Town's assessment and tax levies for Fiscal Year 2020:

<u>Class of Property</u>	<u>Valuation by Class</u>	<u>Percent of Total Levy</u>	<u>Tax Levy by Class</u>
Residential	\$1,619,220,470	92.68	\$18,944,879.49
Commercial	76,213,530	4.36	891,698.30
Industrial	16,782,700	.96	196,357.59
Personal	<u>34,851,814</u>	<u>2.00</u>	<u>407,766.22</u>
Totals	\$1,747,068,514	100.00	\$20,440,701.61

The following is the tax rate summary for Fiscal Year 2020:

Funds from estimated receipts and other fund sources	11,812,965.00
Funds to be raised by tax levy	<u>20,440,701.61</u>
Total Amount to be raised	\$32,253,666.61

Property exempt from taxation had a total value of \$190,968,000. The tax value of new construction was \$178,838. The Board committed \$886,423.11 in Motor Vehicle Excise Taxes. Excise Taxes on Boats habitually moored in Marion were \$78,187.00. The commitment for the Community Preservation Fund was \$336,882.91.

A summary of abatements and statutory exemptions that were granted for Fiscal Year 2020 are:

Abatements	\$34,228.66
Senior Work-Off Program	9,631.00
Statutory Exemptions	<u>63,606.80</u>
Total	<u>\$107,466.46</u>

It has been an extremely challenging year for everyone due to the COVID-19 Pandemic. Due to the Pandemic, Assessors' Meetings needed to be conducted remotely. Zoom Meetings were introduced to all departments and were held on a regular basis. For a period of time staff needed to work from home monitoring phone messages and emails in order to keep the office available and accommodate the taxpayers of Marion.

The Board thanks Linda Dessert, M.A.A., Associate Assessor, and Cynthia M. Visotski, our Administrative Assistant, for their dedication, work ethic and knowledge of State Assessing Laws and of the responsibilities required of the Board. We are especially grateful for the respect and courtesy they extend to all of the Marion residents and real estate professionals that call or visit our office.

The Board meets regularly on Wednesdays from 3:00 P.M. to 4:30 P.M. and at other times by appointment. We encourage voters to meet with members of the Board at any time to express their value-related concerns. If you cannot meet with us, please visit us online at [marionma.gov](http://marionma.gov) under Town Departments.

In 2020, we updated our online property value database including the online mapping application hosted by MapGeo. MapGeo provides access to digital geographic and property data and works closely with MassGIS to make sure our property records conform to MassGIS standards. Using MapGeo, Town employees as well as taxpayers can easily search for properties by owner's name or address, view property record cards, overlay a MassGIS aerial photo onto a property and/or overlay a FEMA Map onto a property. Neighborhood and Water Factor Maps were also updated and added to the Assessors' web page for viewing. Abatement Applications, Assessors' Maps and additional helpful information are also available on the Assessors' web page located on the Town's website at [marionma.gov](http://marionma.gov) under Town Departments.

Respectfully Submitted,

*MARION BOARD OF ASSESSORS*

George T. J. Walker, Chairman  
Catherine A. Gibbs  
Patricia A. DeCosta, M.A.A.

## **Report of the MARION PLANNING BOARD**

To the Honorable Select-Board:

As with previous years, 2020 was marked by productive and collaborative relationships among other Town boards and committees despite the COVID—19 pandemic that ushered in a new meeting format using Zoom—a video communications platform. The Planning Board made effective and judicious decisions for the orderly growth and development of the community, and we are pleased to submit the following report of our work and continuing education for the year ending December 31, 2020.

One Planning Board member attended the October 27, 2020 Citizen Planner Training Collaborative meeting via Zoom that focused on “Maximizing Local Control Over Wireless Facilities Siting.” The CPTC provides advanced training to citizens involved in municipal planning and land use.

The Board made recommendations to the Zoning Board of Appeals, performed site plan reviews and permitting activities across commercial, institutional and residential sectors over the past year that included land swaps between adjacent parcels, preliminary subdivision applications, Approval Not Required plans, pre-submission conferences, definitive site plan reviews, and hearings, for example, Municipal Solar Development at Benson Brook capped landfill by Distributed Solar Development, LLC, a new Campus Center at the Hayden Library site at Tabor Academy, Saltworks Marine, LLC, Marion Lands Trust, LLC, a Todd Zell subdivision and more.

Town Planner Gil Hilario reported on Master Plan Goals that include four successful grant applications totaling \$177,739. Marion was awarded \$120,238 from the Green Communities Program, \$27,750 for its Hazard Mitigation Plan, \$14,751 for its work with the Americans with Disabilities (ADA) Self Evaluation Plan, and \$15,000 for its Community Compact Human Resources Review of Policies.

The ADA Self-Evaluation Plan is underway, as the Institute of Human Center of Design has surveyed a few buildings, and mostly outdoor venues such as Silvershell Beach, the bandstand, Bicentennial Park, the grounds of Sippican Elementary School, Washburn Park, and the harbormaster’s building.

Marion’s Master Plan is used for guidance in the Planning Board’s official activities as we consider Marion’s future, particularly, housing options, resiliency, and transportation. We are grateful for the participation and ideas offered by our neighbors as we continue to work to seamlessly link north Marion with the harbor and Village area. The Planning Board’s contract with the Southeastern Regional Planning and Economic Development District (SRPEDD) has provided excellent technical expertise to guide us through various projects.

The Planning Board continues pursuing Master Plan goals:

- The Bylaw Codification Subcommittee continues working to resolve bylaw systematization issues while integrating Master Plan goals.
- The Board continues its efforts of promoting the incorporation of Low Impact Development and Green Infrastructure into development designs.
- The Board continues striving to provide middle-income housing and affordable senior housing options.
- The Board continues to direct development out of high flood hazard areas, reduce energy consumption and greenhouse gas emissions.
- The Board, with assistance from SRPEDD, addresses improvements on our local roads while determining viable options to calm Route 6 traffic. The corridor study of Route 6 from Fairhaven, through Mattapoisett, Marion, and Wareham continues.
- The Board seeks to protect, preserve, and enhance Marion's environmental resources through the stewardship of open space to make Marion a wonderful place to live, work, and raise a family.

The June 2020 Town election resulted in the reelection of Norman Hills, and Eileen J. Marum.

The Board reorganized with William W. Saltonstall elected Chairman, Andrew Daniel elected Vice-Chairman and Eileen J. Marum elected Clerk.

\*Ms. Kristen Saint Don Campbell resigned from the Board November 2020. Chairman Saltonstall thanked Ms. Saint Don Campbell for her service and commitment to the Town of Marion.

Respectfully submitted,

William Saltonstall, Chairman

Andrew Daniel, Vice-Chairman

Eileen J. Marum, Clerk

Norman Hills

Chris Collings

Joseph Rocha

\*Kristin Saint Don-Campbell

## **Report of the DEPARTMENT OF PUBLIC WORKS**

To the Honorable Board of Selectmen:

Respectfully, I am pleased to submit the report of the Department of Public Works for the calendar year 2020. The following is a summary of accomplishments and plans for the upcoming year.

### **HIGHWAY DIVISION**

**Operations** – Division staff began utilizing a Work Order System and a daily assignment tracking form to organize all daily activities. The Work Order System tracks requests for support/assistance from other Departments, elected officials/committees, appointments, residents, and other stakeholders. These requests come to the Division often and sometimes urgent; and detract from the ability of the Division to perform normal work functions. Tracking time away from normal work activities is essential when assessing ability to maximize service performance. The Work Order System was implemented in June 2020 and through December 2020 DPW staff have logged a total of **871** work requests.

**Transfer Station** – DPW employees assisted with operating the Carver/Marion/Wareham Transfer Station located on Benson Brook Road through December 31, 2020. The DPW will manage and operate the facility for Marion and Rochester residents only. Beginning January 2021, the DPW Department will replace old signage, repair the deteriorating pavement, and address other maintenance issues.

**Landfill** – The Post-Closure Landfill Inspection occurred twice in 2020 in accordance the Department of Environmental Protection (DEP) guidelines. Staff performed the annual maintenance requirements and accomplished minor repairs. The capped site remains structurally sufficient.

**Stormwater Program** – The Year 2 Annual Report for Massachusetts Small MS4 General Permit (May 1, 2019 through June 30, 2020) was successfully completed and submitted per the DEP schedule requirements. The DEP approved the Year 2 MS4 Permit. Staff is currently working on **Year 3 MS4** Permit.

**Capital Equipment** – The Division acquired a new side-arm mower for roadside and open space mowing maintenance. This unit is also equipped with a front bucket which will be helpful loading trucks and moving snow during winter operations.

**Capital Equipment** – The Division acquired a new bucket truck with an articulating and telescoping boom needed for tree trimming, street light repairs and other necessary DPW maintenance tasks. The truck is also outfitted with a forestry body to hold chipped wood product.

**Capital Project** – Consultants are working on a feasibility study for a new DPW Operations Building on Benson Brook Road. The existing facility on Mill Street does not meet current codes or spatial needs. A new facility is needed to allow employees to work safely and efficiently as well as allow for proper care and maintenance of town-owned equipment and vehicles. The new facility will include sufficient storage needs, a vehicle and equipment repair and preventative maintenance bay, a wash bay and undercover parking. Situating the facility in close proximity to the Wastewater Treatment Plant will allow for project cost reductions by utilizing potential synergies including utilities, access, security and shared parking areas. The feasibility study will further define need, early concepts for the site and building, as well as cost.

### **WATER DIVISION**

**Capital Project** – Late summer 2019, the Water Division staff initiated conversations with the Town's Water consultant regarding a Fire Hydrant (FH) Replacement Program. In order to address the need it quickly became apparent that it would be necessary to establish a regular and formal replacement schedule of older equipment. In 2020 four FH were replaced and a contract template was developed for staff to utilize annually to procure work. The FH Replacement line item is, for a second time, in the 2021 Capital Improvement Project Program.

**Capital Project** – The *Mill Street Water Main Replacement* is nearly complete. The water main and services are installed with a temporary pavement cover over the trenches. Pending conducive weather, the contractor will mill off a layer of old pavement and apply a fresh pavement service. The project is on schedule and budget.

**Capital Project** – The Town awarded the Engineering Services for the *Point Road and Delano Road Water Main Replacement* in July 2019. This project is in the design phase.

### **SEWER DIVISION**

**Operations** – The Town received bids for FY2020/2021 Inflow and Infiltration (I/I) Projects. The low bid was well below engineering estimate and additional work was completed. Sewer Division staff included several additional sites as bid alternatives and the added work was incorporated seamlessly.

**Operations** – Division staff successfully completed and submitted Phase 2 Capacity, Management, and Maintenance and Operations (CMOM) Report in accordance with DEP guidelines. DEP approved the Phase 2 CMOM Report. Staff is currently maintaining the collection system in accordance with our Phase 1 and Phase 2 CMOM Reports.

**Capital Project** – The Town awarded the *Wastewater Treatment Plant (WWTP) Improvements* to a private contractor in October 2019. The project includes instrumentation and control upgrades, UV disinfection expansion, additional filtration, and various mechanical improvements. In addition, one of the plant lagoons will have an impermeable liner installed to the basin footprint.

The early project improvements (controls, disinfection, and filtration) have been completed. However, it was discovered during the dewatering effort prior to lining Lagoon #1 that there were far more solids to remove than originally estimated by the design engineer. Staff, our consulting engineer, and the contractor are working to resolve the issue.

**Capital Project** – The Town received bids on the *Comprehensive Wastewater Management Plan Update* in November 2019. The planning effort originally include significant public input during 2020. Due to the Covid19 pandemic public input has been minimal. Staff anticipates that much of the public process can be completed virtually during 2021.

Respectfully,

David H. Willett, MBA, PE  
Director of Public Works

## **2020 STATISTICS**

### ***WATER***

Total Water Pumped in 2020 (recorded in gallons)	209,564,000
At #1 Pumping Station, North Marion	0
At Mary's Pond Pumping Station, Rochester	0
At Rochester East Wells	0
At Rochester West Wells	0
At Wolf Island, Rochester (MRV)	104,577,000
At North & South Wells, Rochester	104,987,000
Greatest amount of water pumped in one month--August	26,873,000
Smallest amount of water pumped in one month--February	11,720,000
Greatest amount of water pumped in one week--07/28-08/03	6,732,000
Smallest amount of water pumped in one week--01/01-01/06	2,436,000
Greatest amount of water pumped in one day--07/31	1,022,000
Smallest amount of water pumped in one day--12/02	327,000
Average daily pumping	574,148

### ***SEWER***

Total Sewage Pumped in 2020 (recorded in gallons)	158,147,000
Greatest amount of sewage pumped in one month--April	19,912,000
Smallest amount of sewage pumped in one month--September	7,618,000
Greatest amount of sewage pumped in one week--04/28 - 05/04	5,127,000
Smallest amount of sewage pumped in one week--10/06-10/12	1,694,000
Greatest amount of sewage pumped in one day--05/02	878,000
Smallest amount of sewage pumped in one day--10/10	229,000
Average daily pumping	433,279

### ***RECYCLING***

CRT's	151
Air Conditioners	95
Dehumidifiers	40
Refrigerators	35
Freezers	10
Christmas Trees	412
Single Stream (paper & commingles)	475 Tons

**Report of the  
BUILDING COMMISSIONER**

To the Honorable Board of Selectmen,

I am pleased to provide the following report on the activities of the Marion Building Department for the year 2020.

Marion's Building Department is responsible for administration of the General Laws of Massachusetts' Building, Electrical, Plumbing and Gas codes, Architectural Access Board regulations, and Town of Marion Zoning Ordinances as they relate to land use, construction, occupancy and demolition of buildings and structures.

The Department's primary goal is to protect the public's life, health, safety and welfare as it relates to construction and occupancy of buildings. We ensure that all construction, reconstruction, alterations, and repairs conform to the requirements of the State Building, Electrical, Plumbing and Gas codes and the Town of Marion Zoning Ordinance and by conducting annual inspections on specified use groups in existing buildings.

The pandemic this past year was definitely a challenge for us all. In the face of all the issues the pandemic has caused the building department was able to maintain a steady stream of permit applications despite the fact public access was not allowed. We also were able to continue to provide the best customer service possible while keeping staff and residents safe. I want to personally thank all members of my staff for the commendable work and dedication shown during these trying times.

With the assistance of Town Planner Gil Hilario, we have secured an IT grant with the State in the amount of \$22,688. These monies were used for the implementation of online permitting that happened in August 2020. The online permitting is another tool to help the department be more efficient and user friendly to the general public. It has streamlined the permitting process and also helped to ensure all pertinent departments are apprised of the application for particular construction projects. It has proven to be a great addition to our system.

I continue to serve on the board for the Massachusetts Federation of Building Officials which is comprised of members of the four building official associations in the Commonwealth. It is the mission of the Federation to increase public awareness to the crucial role building officials play in ensuring public safety in the built environment, to advocate for responsible and reasonable building code development, and to be involved in the legislative process whenever our profession or the safety of the citizens in the commonwealth may be impacted.

I am honored to serve the town and the residents in the capacity of Building Commissioner and look forward to many more productive years.

Respectfully submitted,

Scott C. Shippey, Building Commissioner

*Type of Permit (Permit numbers may reflect multiple projects on one permit)*

New Dwellings	1
Replace Dwelling	2
Additions	9
Mechanical	3

**Report of the  
ZONING BOARD OF APPEALS**

To the Honorable Board of Selectmen:

The Zoning Board of Appeals has the responsibility under Chapter 40A of the Massachusetts General Laws to act as the Town's Special Permit Granting Authority in matters concerning the application or interpretation of the Town's Zoning By-laws. The Board is comprised of five regular members, plus three alternates, and holds hearings upon request by property owners seeking relief from restrictions regarding the use of their property.

During the year 2020, a total of 12 public hearings were held, eight of which were for special permits and three for a variance. In addition, one application for a comprehensive permit was considered, with the hearing process being extended into 2021.

Respectfully submitted,

Christina Frangos  
Chairperson

Total hearings in 2020:	12
Special Permits:	6 granted 2 withdrawn
Variances:	3 granted 0 denied
Comprehensive Permit:	1 continued

## **Report of the FACILITIES DIRECTOR**

To the Honorable Board of Selectmen:

I am pleased to submit my eighth report of the Marion Facilities Department for 2020.

Our major project of the year was to replace roofing, siding and rotted trim at the Marion Town House. On May 13, 2019, the project was approved at Annual Town Meeting. The CPC granted us \$800,000 for the purpose of restoring the exterior of the front 1876 section of the Marion Town House. Through a competitive bid process, Vareika Construction Inc., from West Bridgewater, won the bid. The scope of work consisted of replacing the roofing, rotted fascias, soffits and brackets, new siding, corner boards, and water table. The original windows on the first and second floors were refurbished and reinstalled with new storm windows. The third floor windows were unrepairable and replaced with new historically correct aluminum clad insulated windows.

During construction we were approached by a local philanthropist who wanted to donate to the restoration project. An amount of \$500,000 was raised from a small group of local generous donors, as well as the Sippican Historical Society. The philanthropist's goal was to rejuvenate and reopen the front entrance of the 1876 building, as well as contribute to the 1890 Annex restoration. This included new landscaping, granite stairs, elevated walkway, restored front entrance columns, new solid wood front entrance doors to match the originals, and automatic door openers. The original pink granite curbing, steps, and bluestone pavers were reused in the new design.

The two donators were able to pitch in \$75,000 each, for a total of \$150,000 to help restore the 1890's Annex portion of the building. This money funded a new asphalt shingle roof, PVC flat roof, new fascias, soffits, gutters, and restored cupola with new copper roof.

At the fall Special Town Meeting, we were able to re-appropriate leftover funds from multiple projects to replace 40 windows on the Annex. The new windows will be historically correct and match the front section of the building. We will all continue our efforts to gather money from all available sources in hopes to complete the entire Town House envelope by the end of summer 2021.

During construction of the exterior, we spent some time upgrading interior spaces. A new mini-split HVAC system was installed on the second floor of the Town House. New fabric blinds were installed on all the second floor windows. Multiple offices were reconfigured for either new personnel or reorganization. We also replaced the gazebo roof shingles with slate shingles recovered from an old water station roof on Pumping Station Road.

Entering the new year with the virus posed multiple challenges for every department. PPE, cleaners, cleaning equipment, and lumber supplies were difficult to procure, and if available, very expensive. All work spaces throughout town needed to be outfitted with protective barriers and 6' separation needed to be maintained in common areas. Working hours and cleaning schedules were difficult to manage, especially with the lack of PPE. Through grants from the State, we were able to fund all the additional equipment and supplies to keep our employees safe at work. We were able to install in-duct air purifiers at all occupied town buildings. The indoor air quality units are equipped with Hydro-Peroxide plasma cartridges that are proven to kill 99% of viruses, bacteria and mold. The IAQ's, (Indoor Air Quality units), will remain permanent and maintained for constant air purification for our employees and visitors.

This summer, while the Library was closed to the public, we replaced the entire 1980's carpet with 2'x2' commercial carpet tiles. We were also able to paint the walls and trim in the main stack area, front reading room, rear hallway, and both bathrooms.

The Town Planner was able to secure multiple grants through Green Communities and fund numerous energy saving projects throughout town. One project replaced an oil fired furnace at the Front Street Pumping Station with a new high efficiency natural gas furnace. Another oil fired furnace was replaced at Main Water Pumping Station with a high efficiency propane furnace. This eliminated the use of fuel oil at both locations and risk of ground contamination at the station's water supply. The kitchen furnace at the Community Center was replaced with a new heat pump system. Other projects included adding 8" of blown-in insulation in the Community Center attic and insulating a section of the Music Hall basement.

The Facilities Department received \$94,560 from CPA to remediate water infiltration in the front basement and crawl space of the Music Hall. The front basement section was completed in the fall of 2019. The remaining crawlspace work was completed this summer. By performing the work ourselves, and the help of DPW labor, we were able to save a substantial amount of money, turning back about \$65,000 to the CPA fund.

Two of the Facilities 2020 Annual Town Meeting projects were completed by this fall. The Community Center kitchen furnace was replaced, and we purchased a new 2019 work truck to replace our 16year old handed down DPW truck. Due to constraints with the pandemic, I was unable to procure bids on the beach house epoxy floors and new shower pedestal. I plan on completing these projects by fall 2021. \$307,760 was passed at town meeting to waterproof the front section of the Town House basement. After revisiting this project and some value engineering, we developed a plan to waterproof "both" sections of the Town House basement, instead of one; potentially saving \$400,000 in future expenses.

We are on our fourth year of Fire Station 1 exterior repairs. All of the windows have been installed, insulated, and trimmed on the interior. We finished the north side last summer and plan to tackle the south side this summer.

I'd like to thank my Facilities crew - Peter Wood and Eric Cormier, the Department of Public Works, Recreation Department, Harbor Master crew, Barden's Boat Yard, the Marion Historical Commission for their guidance, and to all the generous donators that helped restore the Town House exterior. It's always a team effort and we appreciate your help!

Respectfully submitted,  
Shaun P. Cormier  
Facilities Director

## Installation of Town House cupola

## **Report of the MARION BOARD OF HEALTH**

To say the least, 2020 was a challenging year for your Board of Health. In addition to the once in a lifetime Covid-19 pandemic, staff turnover added to our stress. Despite this, I am pleased with how the Board and its staff responded.

In April, our long-time Health Agent, Karen Walega, who worked for the joint Marion-Rochester Health District, announced her retirement and plan to work part-time for Rochester. This in turn led to a dissolution of the District, as its only real function had been to allow the towns to split her salary. In August, long-time Public Health Nurse Kathy Downey, who had been very involved in our Covid response, announced her retirement plans.

Gratefully, we have had excellent replacements for these positions. Our new Public Health Nurse, Lori Desmarais, has been tireless in doing the contact tracing and public outreach necessary to stop the spread, as well as the planning for our very successful vaccination clinic for First Responders and other patient-facing workers from Marion and three neighboring towns. Her extensive background in nursing and public health allowed for a seamless transition. David Flaherty, our new Health Agent, also came to Marion with the credentials and experience necessary to take over the job on day 1. In addition to his role in Title V (septic) and Title II (housing) inspections, David checks food establishments for sanitary conditions and has been very involved in enforcing state-mandated Covid-19 rules.

In the early stages of the pandemic, an Emergency Management Team was established, joining the chiefs of the police and fire departments, town administration, Selectmen and Board of Health to coordinate the town's response. This team met weekly via Zoom and ensured a steady flow of communication. I was delighted at how well the entire team worked to design and implement the town's response. In the Spring and early summer, cases remained low, but as fall approached cases rose dramatically, first at Sippican Health Care and later among town residents. The Board worked with the school district and Tabor Academy to develop plans to safely permit classes to resume.

Marion got lucky in one way: the anticipated high number of Eastern Equine Encephalitis cases did not materialize, due in part to vigorous mosquito control efforts.

A very successful "drive-through" vaccination clinic held in January gives me reason to believe that when adequate supplies of vaccine are available, we will be able to quickly get this to all town residents, starting with our most vulnerable populations.

Finally, I would be remiss not to thank Maureen Murphy, the very able and hard-working administrative assistant to the Board.

Here's to a healthy future!

Edward P Hoffer, MD Chair  
Dot Brown Vice Chair  
John Howard MD, Secretary

## **Report of the PUBLIC HEALTH NURSE**

To the residents of the Town of Marion:

Public Health Nursing Services support the health and well-being of the residents of the Town of Marion. This is done by addressing immediate health needs and by anticipating future needs.

I would like to take this opportunity to introduce myself. My name is Lori Desmarais. I joined the town as the Public Nurse at the beginning of September. I have been a registered nurse for over 25 years. I have spent most of my career (23 years) working full-time as the Director of Infection Control and Staff Education in a nursing home. I have also worked part-time as a public health nurse for the last 6 years for several communities. I enjoy working as a team and being involved with the community.

Preventing communicable disease outbreaks is an essential focus of my role. 2020 has been a unique and challenging year for public health. During this past year as a community, we have been focused mostly on Covid-19, the closing and the re-opening of businesses and schools, keeping the town up to date with the ongoing sometimes daily changes regarding Covid-19, case investigation, Isolation and Quarantine, and Contact tracing are all important pieces of preventing the spread of Covid-19. Marion had a total of 201 cases in 2020.

Just over 800 residents received the seasonal flu vaccine during the 2020-2021 flu clinic season. With social distancing in place and limited indoor capacities, we decided to hold drive-through flu vaccination clinics. These clinics helped to develop the foundation for Covid-19 vaccine clinics / Emergency Dispensing Sites (EDS) to come.

Emergency preparedness remains a concern for the town and the Board of Health. We continue to recruit new medical **and** non-medical members to the Community Emergency Response Team (CERT) formally the Medical Reserve Corps (MRC). This group exists to support the town in its disaster readiness preparations, and training sessions are offered to CERT members online and in person as allowed. We continue to need volunteers who can help with a variety of functions including but not limited to greeting, registration, security, traffic flow, communications, inventory management, data management, event planning, animal care, childcare, pharmaceutical, behavioral health, nursing and medical care. We recognize the importance of having volunteers from all neighborhoods within Marion, and across all age groups. All town residents are encouraged to consider joining the CERT to help us assure that Marion is ready to respond to threats that might arise to the health and well-being of our community.

I look forward to 2021!

Respectfully submitted,  
Lori Desmarais, RN, BSN, EMT-B  
Public Health Nurse

## **Report of THE MARION COUNCIL ON AGING**

The Council on Aging (COA) started 2020 with high expectations. We welcomed it in with a crowd that packed the Benjamin D. Cushing Community Center for a luncheon and musical event. Through January and February, we kept up the momentum. We provided a wide variety of personal services to older adults. We hosted a gamut of programs and activities ranging from exercise classes, lectures and luncheons to weekly bridge and mahjong gatherings to daily local bus runs. We had several excursions further afield. We partnered with Tri-Town Motors to put on a Valentine Social. As part of a program to be proactive rather than reactive to the needs of Marion's older adults, first to the Select Board and then in public meetings, Friends of Marion Council on Aging (FMCOA) presented the results of a survey sent out to every town resident 60 years or older. Behind the scenes, renovation of the Community Center office space was concluding. It was a winter full of vitality we intended to capitalize on moving into the spring.

As we progressed into March, how to stay true to our mission, vision and value statements became a moving target. This would prove to be a constant for the remainder of the year.

By mid-March, we had transformed the Center into a food bank to help Marion residents. With support from the Recreation Department, we were distributing more than one hundred boxes of food weekly when we passed this project to a more established food bank better able to sustain it.

We took our activities and moved them to Zoom and YouTube so we could continue to be together in some fashion. By posting videos and adapting to these new technologies, we were still able to exercise and meditate from the safety of our homes. We started a Friendly Conversation Program that brought together volunteers with members of the community who were feeling isolated. Home delivery of meals and getting seniors to medical appointments continued.

By June, we began spreading our wings more while adhering to frequently changing guidelines and restrictions. We set up a tent on the grounds of the Community Center and began offering exercise classes, meditation sessions, support groups, a weekly Memory Café and outdoor lunches. It was wonderful to welcome friends back and enjoy watching them interact with each other again.

Through a generous grant opportunity, we were able to build a Community Garden on the grounds of the Center. On a larger scale, we partnered with the Friends of Marion Council on Aging (FMCOA) to hold a fun and successful yard sale for the benefit of a landscaping project at the Community Center.

As we moved into the fall then winter, we had to adapt yet again in response to an increasingly dangerous situation, especially for our seniors. We re-implemented content delivery via Zoom and YouTube and re-activated the Friendly Conversation Program. Knowing Thanksgiving would prove a challenging time for some families, we distributed over fifty Thanksgiving baskets along with gift cards. In partnership with the Recreation Department, we transitioned our popular soup luncheons into a grab n' go drive-thru format. We used this same format for a dinner offering at year's end.

Momentarily moving away from the year's operating challenges, but coincidentally something that could not have come at a better time, was the staff moving into newly renovated office space at

the Community Center. This was made possible by the generosity of Friends of the Marion Visiting Nurse, Friends of Marion Council on Aging, Friends of Marion Recreation and many residents. A COA board committee devoted considerable time to planning and implementing this project. It was accomplished thanks to the experience and abilities of the Facilities Department. We look forward to the day when the deferred ribbon-cutting can take place.

There is so much more to tell, such as how town departments came together to organize and deliver a flu shot clinic that was arguably more crucial this year than in years past. This and so many other efforts big and small by so many individuals and groups made a world of difference. The COA staff has had a challenging but productive year. We appreciate the steadfast support from the Council on Aging Board, Friends of Marion Council on Aging, a wonderful corps of enthusiastic volunteers and you, the citizens of Marion. Thank you.

**Report of the  
MARION AFFORDABLE HOUSING TRUST**

To the Honorable Board of Selectmen:

The mission of the Marion Affordable Housing Trust is the creation and preservation of housing in Marion for the benefit of low- and moderate-income households. In achieving our mission, we seek:

1. To promote a variety of affordable housing options for those with modest income, including young adults, families, long-time residents, the elderly, downsizers, returning Marion natives and municipal employees.
2. To preserve the natural, historic and seaside character of our Town and to nurture our sense of a diverse, yet integrated community.

Activities for the Trust in 2020 included:

1. The Trust continues to actively search for potential properties suitable for affordable housing development.
2. The Trust applied for and receive Community Preservation Committee funding to obtain a housing consultant to research sites in town for senior housing.
3. The Trust applied for and received Community Preservation Committee funding to update the Housing Production Plan with the help of the Southeastern Regional Planning & Economic Development District.
4. The Trust worked with the Board of Selectmen and Heron Cove Estates, LLC on the pre-development of a “Friendly 40B” which is currently in the permitting stages with the Zoning Board of Appeals and expected to be developed in 2021. Once completed, the development will put the Town well above the States Subsidized Housing Inventory 10% threshold.
5. The Marion Affordable Housing Trust continues to look at the possibilities of zoning and mixed-use development to promote affordable housing.
6. The Trust continues to cooperate with the Planning Board on matters of Zoning and for possible amendments to the Zoning Bylaws that will encourage affordable housing in appropriate areas of the Town.

We wish to express our appreciation to Town Administrator Jay McGrail and Town Counsel Jon Witten.

Respectfully submitted,

Casey Cole Vieira, Chairman  
Ethan J. Gerber, Vice-Chairman  
William do Carmo  
Gregory Polzer  
Cynthia J. Thomas

## **Report of the POLICE DEPARTMENT**

To: The Honorable Board of Selectmen

I am pleased to offer this report on the activities of the Marion Police Department for 2020.

There were several personnel changes in the department during the year. After 34 dedicated years of service Chief John Garcia announced his retirement. We thank Chief Garcia for his dedication to the department and wish him well in retirement. With Chief Garcia's retirement I was honored to be selected as the 11<sup>th</sup> Chief of Police in the history of the town. In December, Sergeant Derryl Lawrence announced his retirement. We also wish Sgt. Lawrence well in retirement. Officer Kaylah Medeiros, Officer Peter Bourgault, and Officer Connor Flynn were hired to fill vacancies.

In March, Governor Charlie Baker declared a state of emergency for the Covid-19 pandemic. Our department went to work right away implementing policies and procedures relevant to the pandemic to keep the public and our officers safe. We encouraged our officers to take more calls for service over the telephone while limiting the amount of people coming in to the station. At the station an in-duct air purifier system was installed, and an electrostatic disinfectant sprayer was purchased.

Despite the pandemic our Officers found ways to continue to be engaged in the community. Our officers attended events such as trunk or treat, and ran the toy drive during the holidays which provided over 1000 toys to families in need.

The department remains actively involved with Plymouth County Outreach. Plymouth County Outreach was formed in December 2016 and is comprised of all the police departments in Plymouth County. When an individual experiences an overdose, responding officers are equipped with Narcan to reverse the overdose if necessary. Within 24-48 hours after the overdose, a plain clothes officer and an outreach counselor will attempt to visit the individual who overdosed. The purpose of the visit is to offer information and access to treatment services.

I would like to thank the other town departments for all their assistance and support throughout the past year.

Finally, I wish to offer my gratitude to the members, including administrative staff, of the Marion Police Department and would like to thank them for all their dedication to keeping Marion a safe place to live.

Respectfully Submitted,

Richard B. Nighelli  
Chief of Police

**Report of the  
ANIMAL CONTROL OFFICER**

To: The Honorable Board of Selectmen

Animal Control responded to 313 calls for service in 2020. These calls involve domestic animal issues, such as unrestrained dogs, barking complaints, quarantine and public health issues. Interactions with wildlife and education about wildlife is also an important function of the services provided by Animal Control. One of the goals of Animal Control is to provide the tools and information to the public to ensure the safety and well-being of people and animals.

The Humane Society and Shelter SouthCoast in Dartmouth has been a tremendous asset to Marion. The staff does an amazing job sheltering and caring for not only dogs and cats but a wide variety of animals in need. Reptiles, parrots, and rabbits are only a fraction of the wide array of pets they place in safe and loving homes.

The P.A.U.S. Fund is a great help to the Town. Privately funded by donations, the fund helps offset the cost of medical treatment, extend holding time to provide care and placement for strays and pets in Marion. Donations can be made at the Town Clerk's office.

Covid-19 has had effects on all of us in many ways. There has been a sharp increase in the number of people and their pets enjoying our parks and beaches. The yearly supply of Pet Pickups was depleted by the end of November. Please remember that picking up after and proper disposal of pet waste is not only a courtesy to others, but also a law.

Finally, I would like to thank the Marion Fire Department, Jess and Wayne Costa of Washburn Stables and Sherman Briggs for their outstanding work rescuing two equines stuck shoulder deep in mud. This was a dangerous and difficult operation and would not have been successful without the dedication and cooperation of all involved!

Respectfully Submitted,

Susan Connor  
Animal Control Officer

**Report of the  
EMERGENCY MANAGEMENT AGENCY**

To: The Honorable Board of Selectmen

I am pleased to offer this report on the activities of the Marion Emergency Management Agency for 2020.

Fortunately, the storms in 2020 were a bit milder than previous years and none required a FEMA Disaster Declaration.

In 2019 the town established a Local Emergency Planning Committee (LEPC). This year I am pleased to report that the LEPC committee has completed the Comprehensive Emergency Management Plan (CEMP). The CEMP defines the scope of preparedness and emergency management activities in the community, and facilitates all hazard preparedness, mitigation, response, and short-term recovery activities, thus setting the stage for a successful long-term recovery. The Marion CEMP describes the relationship between the community and local, regional, state and federal emergency response structures.

In March, Governor Charlie Baker declared a state of emergency for the Covid-19 pandemic. We immediately established a Coronavirus command team. Our team worked hard to provide accurate information to the community, secure PPE for first responders, and work with the local business community, just to name a few tasks of the team. This leadership team met almost every day at the start of the pandemic and continues to meet at least once a week as of December.

I would like to thank all the town departments for their assistance throughout the past year, and their continued support in keeping Marion well prepared.

Respectfully submitted,

Richard B. Nighelli  
Chief of Police  
Emergency Management Director

## **Report of the PARKING CLERK**

To the Honorable Board of Selectmen:

This has been the thirty eighth year the Town has been involved with the Plymouth County Parking Enforcement Program. The Town pays \$1.50 per ticket to this Program, which then pursues parking violators until fines are paid.

Violators should be warned that this pursuit becomes most annoying when automobile license and registration renewals are blocked until such fines are paid. Fines may be paid on-line at [www.plymouthcountyparking.com](http://www.plymouthcountyparking.com).

This year, \$3,655.00 were collected in fines, \$3,278.25 of which were returned to the Town.

I wish to thank Donna Hemphill, Administrative Assistant, for her dedication and for the respect and courtesy she extends to all Marion residents.

Respectfully submitted,

Randy L. Parker  
Parking Clerk

Veterans Day 2020, photo by Donna Hemphill

## **Report of MARION FIRE/EMS**

We respectfully submit our 2020 Annual Report for Marion Fire/EMS.

As happens almost every year, we have once again experienced a change in personnel. We lost the following staff members: Lieutenant Richard Scherbarth (6 yrs.), Lieutenant Peter Bourgault (7 yrs.) Paramedic Kevin Dyer (3 yrs.), Firefighter/EMT David Shaw (12 yrs.), Firefighter / EMT Daniel Blizard (4 yrs.), Firefighter/ EMT Justin DuBois (5 yrs.), Recruit Firefighter Laurina Franklin (2 yrs.), Recruit Firefighter David Kaplan (1 yr.), Recruit Firefighter Jeffrey Despres (1 yr.)

New members include Firefighter Paramedic Lyle McKay, Paramedics Jared Chadwick, David Cleary, Drew Girouard, Jared Shaughnessy, EMT's Daniel Gallagher, Bradford Slack, Firefighters Ryan LaPerle and Christopher Sharpe.

We have five members enrolled in the 2021 MA Fire Academy Call/Vol Fire Academy.

The following members achieved certification in these areas: Ronnie Owens Firefighter 1/2, FF Dustan McGlinn EMT, FF Matthew Miller EMT, FF Joseph Tripp EMT

The all-consuming news for calendar year 2020 is the Covid-19 pandemic and the many ways it has altered our operations. Since the onset of the pandemic, we have been completely immersed in finding ways the protect our employees and to ensure continuity of operations so we can effectively serve the residents of Marion. We have always had an infection control program but the threat to the health and wellbeing of the community has never been so severe. We actively sought out new equipment to best protect our employees. We trained on new decontamination methods to ensure we limited the spread of this disease after an exposure. We altered our normal work and training schedules to comply with Board of Health recommendations that limits crowd size and we participated in weekly Incident Management Team meetings to assist in developing a response plan for our community.

Our staffing model changed slightly during calendar year 2020. We now have an additional full-time Firefighter/ Paramedic on staff to help in addressing shortfalls in adequate Advanced Life Support (ALS) coverage. Firefighter/Paramedic Lyle McKay filled this role and serves as our Emergency Medical Services (EMS) coordinator. Medical calls are the predominant emergencies that we respond too. Having proper oversight and additional staffing has cut our reliance on surrounding communities to respond to these emergencies. Firefighter/EMT Joseph Tripp has assumed the duties of full-time Fire Inspector.

We are anxiously awaiting the arrival of a new tanker truck. We were awarded \$297,142 dollars through the FEMA Assistance to Firefighter Grant Award for this purchase. These funds combined with a small cost share will provide our town with a level of protection of have not known in the past. We are reviewing the results of a study that evaluated fire protection in private developments. As we suspected many lack the necessary fire flow to successfully fight a fire. The awarding of

this grant will provide us with the necessary on-board water supply to protect lives and minimize property damage.

We continue to pursue as many grant opportunities as possible to expand our programs and minimize the costs to taxpayers. We have expanded our services to older adults in the community as we now provide smoke and carbon monoxide alarm as well as lock boxes.

We look forward with great hope that we can put Covid-19 behind us and resume normal operations in service to the community.

**Call Activity:**

We responded to a total of 1178 **emergency calls in 2020. This represents an average call volume from the previous year.** The busiest day of the week is Wednesday. The busiest time of day is between 2-3 pm. We provided Mutual Aid to other communities 59 times and received Mutual Aid 5 times. Medical responses by reasons include falls, motor vehicle crashes and difficulty breathing as the most common occurrence.

**Major Incident Types:**

Series	Heading	Call Volume
100	Fire	23
200	Overpressure Rupture Explosion, Overheat (No Fire)	2
300	Rescue and Emergency Medical Service (EMS)	785
400	Hazardous Condition (No Fire)	51
500	Service Call	65
600	Good Intent Call	63
700	False Alarm and False Call	187
800	Severe Weather and Natural Disaster	2
	Total call Volume	1178

**Permits & Inspections:**

Fire & Life Safety	118	Smoke & CO Detectors	215
Fire Detection Systems	4	Fire Suppression System	2
Marine Fueling	2	Oil Burner/Tanks	32
Cargo/Transfer Tank	6	Tank Removals	4
Unvented Gas Heaters	2	Explosive Storage	1
LP Storage	36	Fireworks Permits	1
Tents	28	Open Air Burning	242

In closing, we wish to extend our sincere thanks to Administrative Assistant Cindy Visotski, Marion Police, the various Town Boards, Committees and Departments, the Honorable Board of Selectmen, and especially Jay McGrail, Town Administrator, for their cooperation and support. We are proud to represent Marion Fire/EMS and look to continue the excellent level of service provided to Marion residents and those that pass through our community by the dedicated men and women of this department.

Respectfully submitted,

Brian Jackvony

## **Report of the RECREATION DEPARTMENT**

To the Honorable Board of Selectmen:

It gives me great pleasure and it is an honor to submit to you the sixty sixth report of the Recreation Department.

Once again 2020 started off with great success and a high number of participants took part in our winter programs. Our Learn to Play Basketball Program for children in grades K-2 had over 70 children in this exciting program. It was our 48<sup>th</sup> Season of The Youth Basketball League. Over 160 children participated in this league. Public Skating was once again offered at Tabor Academy on Sunday afternoons, along with Adult Basketball at Sippican School Wednesday evenings.

Then in early March, Covid-19 came and all Recreation Department Youth and Adult Programs came to a screeching halt.

Jay McGrail, Town Administrator, approached Karen Gregory, Director of Council on Aging, and me to see if it was possible to do a "Food Bank" here at the Community Center for Marion residents. Without hesitation we accepted this challenge and had the Food Bank up and running within one week. This would not have been possible without the generous donations, from residents, churches, clubs, associations and businesses. I would also like to thank the many volunteers who came in and assisted in sorting out and distributing the food. Special thanks to the staff of the Recreation Department and the Council on Aging who worked continuously throughout the distribution. The Greater Boston Food Bank and Damien's Place were big supporters of the endeavor.

A small fraction of our Summer Programs was offered on a limited basis towards the end of July. They were sailing, tennis and golf.

Silvershell Beach had another busy season. I would like thank the lifeguards and the beach staff for doing a great job in keeping the beach safe and clean. Weekly drills with the lifeguards were conducted.

Our fall programs were limited to Recreation Soccer and Travel Soccer; both programs were held at the Dexter Field Complex in Rochester.

In closing I would like to thank the many town departments and dedicated employees that provided assistance and guidance during this challenging past year. Without their assistance the many programs that we offer throughout the years would not be possible.

Respectfully Submitted

Jonathan E. Dickerson  
Director

## **Report of the HARBORMASTER**

To the Honorable Board of Selectmen:

I would like to thank the Board of Selectmen and the Residents of Town of Marion for the opportunity to serve as your Harbormaster. I am pleased to submit this report on the state of Marion's waterways and our activities over the past year.

In February the Department welcomed David Wilson as Full-Time Assistant Harbormaster, filling the position vacated by Peter Bourgault. David is a graduate of Maine Maritime and has proven to be a valuable member of the team.

With the onset and uncertainty of the Covid19 Global pandemic in early 2020 the Marine Department had to put on hold a few of the smaller projects slated for early 2020. Reconstruction of the Island Wharf pump shed and replacement of the two Island Wharf transient tie up floats were delayed until early 2021. Shutdowns, restrictions and stay at home advisories in place resulted in increased boating activity as people sought ways to get out and still maintain "social distancing". The Department saw increased use of the waterways throughout the spring, summer and into the fall. Some of our waterways regulations in regards to use of moorings and access to the waterways were "relaxed" for the 2020 season in order to better accommodate a variety of requests from the boating public as everyone navigated their way through the pandemic. While we still conducted vessel checks for serious infractions a lot of the Department's interaction with the public was limited due to Covid. Boating safety classes were unable to take place marking the first time in over 20 years we were unable to provide these classes. Due to a concern of increased hazards associated with untreated wastewater new pump-out program procedures were put in place to keep Department Staff safe while still offering the free service. A big thank you to our administrative assistant Donna Hemphill for keeping everything running seamlessly throughout the year.

Thank you to the members of the Marine Resources Commission for their support and guidance and all the Town Departments that provide valuable assistance throughout the year, this help is greatly appreciated.

### **2020 Call Activity**

Waterways Emergencies	37
Waterways Violations	18
General Service	852
Permits Issues	1819

Respectfully submitted,

Isaac W. Perry, Harbormaster

<b>Total Expenses</b>	<b>\$</b>	<b>430,203.26</b>

## **Report of the SHELLFISH OFFICER**

To the honorable Board of Selectmen:

I would like to thank the Board of Selectmen and the Town of Marion for the opportunity to serve as your Shellfish Officer. I am pleased to submit the following report on the state of Marion's shellfish resources and my activities over the past year.

2020 we had an increase in sales for recreational Shellfishing permits. We sold 393 permits up from previous years 319 permits sold. Our department did notice an increase in recreational shellfishing along the shores. This year's propagation consisted of planting 200,400 Quahog seed. We planted along Ram Island as well as Island wharf. This is the last year of the B120 propagation project. This year we sold 8 commercial shellfishing permits. This is consistent with past years.

This year we opened the second relay site in Planting Island to recreational shellfishing. We had planted over 800 bushel of adult quahogs. Also we had propagated Meadow Island with 100,000 softshell clams.

I would like to thank the Members of the Marine Resources Commission for their support and guidance as well as all the Town Departments that provide valuable assistance throughout the year, this help is greatly appreciated. If anyone has any comments or suggestions, feel free to call or stop by the office.

Respectfully submitted,

Adam C. Murphy  
Shellfish Officer

photo submitted by Isaac Perry

## **Report of the MARINE RESOURCES COMMISSION**

To the Honorable Select Board:

The MRC is pleased to submit the following report of our activities during the year. Despite the unusual conditions and restrictions presented under the pandemic, the Marine Department once again conducted themselves in an exemplary and professional manner while managing the Town's mooring fields and shore-side facilities, as well as supporting local boaters on the water. The MRC also wishes to acknowledge the efforts of Donna Hemphill, the Marine Department's Administrative Assistant, who continued to provide exceptional service to boaters seeking permits, licenses, and information.

Issues and activities that were addressed this year:

- Aquaculture management
- Assisting with budget and capital planning
- Supporting the design process for a new harbormaster building
- Capital projects
- Continued updating of the waterway regulations
- Shellfish propagation and harvest
- Upgrades to Town floats and kayak/dinghy storage

As with other Town boards, our regular meetings transitioned from face-to-face to Zoom, and back again over the year. Our thanks to Gil Hilario for facilitating these efforts. The MRC continued to work on important issues over the course of the year and handled them professionally in every respect. I wish to thank the members for their hard work and dedication to our harbor and its resources.

In closing, we extend our thanks to the Select Board, Jay McGrail, Judy Mooney, and the Town House staff for their guidance and assistance throughout the year.

Respectfully submitted,

Vin Malkoski, Chair  
Carleton Burr, Jr, Vice chair  
Peter Borsari  
Scott Cowell  
Joe Guard  
Gregory Houdelette

## **Report of CELEBRATIONS**

To the Honorable Board of Selectmen:

A few years ago when the Benjamin D. Cushing V.F.W Post 2425 was disbanded, the Town of Marion proudly took over organizing the Memorial Day Remembrances, the July 4<sup>th</sup> Parade and the Veterans Day Ceremony. The past few years we have had very successful and well attended events.

Unfortunately, due to the COVID-19 pandemic, we had to alter or cancel the events in 2020.

The Memorial Day Remembrances were held on Monday, May 25, 2020 and were closed to the public. Capt. Andrew Bonney led the abbreviated ceremony. In a moving ceremony, he read aloud the names of those Marion veterans that we lost the previous year and rang a bell for each one. Chairman for the Board of Selectmen Randy Parker placed a wreath at the Old Landing Memorial.

The Recreation Department prepared the park ahead of the Memorial Day Remembrances as well as placed wreaths at the Music Hall and on the overpasses in town. The Department also placed American flags and geraniums at each of the veteran's graves at all of the Marion cemeteries. In the past we have had community volunteers, Girl Scouts and Boy Scouts help us with the flags and planting the flowers. Due to COVID-19, the Recreation Department took the lead and we are grateful for their efforts. Hannah Moore and the Sippican School Band created a wonderful video that was made available on ORCTV.

The Annual July 4<sup>th</sup> Parade was cancelled due to the COVID-19 pandemic. ORCTV created a fantastic video of past parades that is available on their website.

The Veterans Day Ceremony scheduled for Wednesday, November 11, 2020 was also cancelled. A resident loaned us his collection of flags of all 50 states and they were placed at Old Landing to commemorate the day. The Marion Council on Aging offered a pick up and go lunch for veterans that was available at noon that day at Old Landing.

I would like to thank Town Administrator Jay McGrail, the Board of Selectmen – Randy Parker, Chair; John Waterman, and Norman Hills for their support. Also, thank you to Capt. Andrew Bonney, Hannah Moore and her students as well as Jody Dickerson and his staff for their tireless efforts to make these celebrations special this year. Thank you to Sunnynook Farm and Stephen Gonsalves for donating time and materials to prepare Old Landing for the ceremonies. Thank you to the Department of Public Works employees who are always there to help. We would also like to thank ORCTV for creating the videos and broadcasting the ceremonies.

While we were disappointed to have to alter and cancel these beloved Marion traditions we are looking forward to celebrating with the community once the pandemic has passed and it is safe to be together once again.

Respectfully submitted on behalf of the Committees,

Donna Hemphill

Memorial Day 2020, photo by Donna Hemphill

## **Report of the MARION ENERGY MANAGEMENT COMMITTEE**

Following on from last year, Marion's Energy Management Committee (EMC) continues to pursue opportunities to move Marion toward energy conservation, renewable sources of power, and municipal cost savings. As the urgency to address the climate crisis gains prominence and momentum around the world, we strive to act responsibly by leading the town away from the use of fossil fuels.

As a part of Marion's qualification for the Massachusetts Green Communities program, the town's goal is to reduce energy use by 20% over a five year period from a 2017 baseline. The energy reduction achieved by the end of 2020 was 14.3%; some of the reduction may be temporary due to Covid-19. Allowances by Green Communities may raise the reduction over the last three years to 15.67% or even about 16.3%. The Annual Report to Green Communities was submitted in November 2020. Potential savings at the Wastewater Treatment Plant are being investigated.

An application for a second round of grants totaling \$115,738 was submitted in April and approval to go ahead has been received. It included new heating/cooling for the Community Center; building weatherization for the Music Hall, Community Center and the main pumping station; storm windows for the library; and fuel conversions for the main and Silvershell pumping stations. In all cases, the EMC recommends where possible that conversions be to heat pumps to reduce dependency on fossil fuels; this has been adopted at the Community Center.

The EMC has recommended that future police cruisers be hybrid vehicles.

Marion's participation in the Future Generation Wind project continues to provide most of the electrical power that our municipal buildings and facilities use, saving the town approximately \$90,000 each year. Of the Town's electrical power, 96 percent is derived from wind power. Since its start in 2016 Marion has received more than \$342,000 in electrical cost savings from those four wind turbines adjacent to Rt. 25 in Plymouth.

With reference to a proposed relocation of the Department of Public Works (DPW), the EMC envisions a new net-zero facility with a ground-source heat pump/geothermal system and in some areas ramps with unheated groundwater circulated to melt snow and ice, a roof large enough to support solar panels, and a radiant floor to make the building less expensive to operate in the long run. Like the Town House, the existing DPW building consumes 4% of the Town's energy budget of which 4% can be broken down to 1% for oil and 3% for gas. Marion Town House, an old building, was insulated in the early 1980s; insulating the walls of the Town House during the current refurbishment will be considered once the town is ready to install new HVAC, electrical and plumbing systems.

The EMC recommended that the vehicle charging station inconveniently located adjacent to the Harbormaster's office be relocated to the angled area of the parking lot opposite the Music Hall, convenient to the town center. EMC is working to develop locations for new charging stations throughout Marion.

The EMC wants to see heat-recovery ventilation systems to increase the flow of fresh air in municipal buildings around town.

The current proposal for a solar array on the town's capped landfill at the Benson Brook site is being followed. Potential enhancements have been suggested and the proposers responses accepted. Grid power supply connections still remain to be resolved. Benefit to the town will determine whether this project goes ahead.

Opportunities for photovoltaics on town properties are being considered. For example, one proposed concept is the construction of carports that could support photo-voltaic solar array panels atop the carports, providing shade for vehicles, providing protection and safety for pedestrians during inclement weather and potentially offering charging stations as the town shifts toward electric-powered vehicles. However, the small margin between committed power usage from wind power and current power usage would not seem to make it worthwhile to explore at this time.

The proposed Harbormaster building will add substantial energy use. EMC believes that the current Harbormaster's office would probably accommodate three people now. The current building could use some remedial work, and it would probably serve the Harbormaster for a long time. The town needs the existing toilet facilities that are open to the public.

With our encouragement townspeople have taken out building permits for more than 165 new solar arrays in the last 10 years. If you are tired of paying those ever-increasing monthly bills for electric power, look into installing a solar array on your own rooftop – possibly dropping your monthly bill to zero.

If you are concerned about the risks posed by climate change, rising energy costs, and environmental deterioration, please consider joining the EMC team! We are looking for new members who are passionate about continuing our momentum. Please come to one of our meetings to find out more, or contact the Town Planner, Gil Hilario ([ghilario@marionma.gov](mailto:ghilario@marionma.gov)), for more information.

The March 2020 meeting of the committee was cancelled due to Corona virus. Subsequent meetings have been held remotely using Zoom. Chairman David K. Pierce retired at the end of the June 8 meeting and was replaced by Christian Ingerslev. Alanna Nelson, Tom Friedman and Alex Roy became new Committee members in October and Jennifer Francis volunteered to become an Alternate member.

Respectively submitted,

Christian Ingerslev  
Eileen J. Marum, Secretary  
William G. Saltonstall Jr.  
Robert D. Fisher  
Alanna Nelson  
Tom Friedman  
Alex Roy

## **Report of the CONSERVATION COMMISSION**

Wetlands and stream at Grassi Bog

To the Honorable Board of Selectmen:

As we all know, Marion is blessed with beautiful beaches, significant coastal resources, sensitive freshwater wetlands, and numerous embayments, rivers and streams. Our natural environment and scenic open spaces are what make Marion so special, and the work of the Conservation Commission contributes to protecting these natural resources. It goes without saying that 2020 was a challenging year for town boards, and the Conservation Commission was no exception. Because of our inability to hold in-person meetings due to the coronavirus, the Marion Conservation Commission conducted most of its meetings by videoconference, with ORCTV livestreaming the meetings, allowing those without videoconference capabilities to view our meetings and call in with any questions or comments.

The Commission had a busy year, holding 21 meetings at which Notices of Intent, Requests for Determination of Applicability, Requests for Certificates of Compliance and other matters were reviewed, public hearings held, deliberations conducted, and decisions issued. In addition, the Commission inspected 105 sites during 21 Saturdays of scheduled site visits.

During 2020, the Commission issued the following:

- 18 Orders of Conditions
- 5 Amended Orders of Conditions
- 6 Extensions to Existing Orders of Conditions
- 26 Determinations of Applicability
- 24 Certificates of Compliance
- 2 Enforcement Orders

Although the primary role of the Marion Conservation Commission is the administration and enforcement of the Massachusetts Wetlands Protection Act and its associated regulations, the Commission is also responsible for the care of 9 town-owned properties and is the grantee of 6 Conservation Restrictions. During 2020, the Commission again inspected a number of these sites.

In 2020, the Commission issued several approvals for the eradication of *phragmites australis*, also known as common reed, a tall, aggressive, invasive species that can spread quickly in both coastal and freshwater wetlands, thereby displacing native wetland vegetation and reducing wildlife

habitat biodiversity. The Commission also extended an Order of Conditions that allows the clearing of fallen trees and branches from the Sippican River in order to provide an unobstructed route for river herring migrating from Buzzards Bay upstream to Leonard's Pond in Rochester.

In 2020, the Commission saw several changes to its membership and organization. In July, the position of chair was transferred from Jeff Doubrava to Shaun Walsh, with Marc Bellanger elected as Vice Chair. In November, Kristen Saint Don-Campbell stepped down from the Commission after serving for over 5 years, and in December, the Board of Selectmen appointed Emil Assing to the position of Associate Commissioner. The Conservation Commission sincerely thanks Kristen for her service to the Commission and to the Town.

Members of the Conservation Commission attended several virtual training sessions and conferences held by the Massachusetts Association of Conservation Commissions to expand their knowledge of the state's Wetlands Protection regulations, MassDEP's wetlands policies, emerging environmental issues, and administrative processes.

Because Marion is the only municipality in this part of the state that doesn't have a professional Conservation Agent, the Conservation Commission requested the assistance of MassDEP Wetlands Circuit Rider Andrew Poyant to provide technical assistance in its review of 2 projects, and the Commission extends its sincere thanks for his help. In addition, the Commission relies heavily on its Administrative Assistant Donna Hemphill, whose excellent work is critical to the proper functioning of the Commission. The Conservation Commission extends its deepest appreciation and thanks to Donna for all of her hard work and support.

Respectfully submitted,

Shaun P. Walsh, Esq., Chair  
Marc Bellanger, Vice Chair  
Cynthia Callow, Clerk  
Jeffrey J. Doubrava, Member  
Ethan J. Gerber, Member  
Emil Assing, Associate Member

## 2020 Annual Report

The Mattapoisett River Valley Water District (District) was formed in 2004 to construct and operate the six million gallon per day (mgd) Mattapoisett River Valley Water Treatment Facility (MRVWTF). The District is comprised of the Towns of Fairhaven, Marion, Mattapoisett and Rochester. The treatment facility, located in Mattapoisett, began operations in 2008.

The MRVWTF treats raw water from eight municipal water supply wells owned and operated by the District Towns. The sources include three Mattapoisett wells, one Marion well, and four Fairhaven wells, which are located in Mattapoisett and Rochester. Treatment at the facility includes oxidation with ozone followed by membrane ultrafiltration with Koch membrane filters for the removal of iron and manganese. The finished water is treated to adjust the pH for corrosion control.

The District received the Massachusetts Department of Environmental Protection 2020 Beyond Compliance Public Water System Award. The District was recognized for being in complete compliance with state and federal drinking water regulations since 2019, and also for not having any violations within the past 5 years. The District also received this award in 2019.

2020 represented the thirteenth year of operation of the MRVWTF. The plant processed 687 million gallons of water (finished water) during the 2020 calendar year. The FY21 operating budget for the plant is \$2,352,500, which represents an increase of approximately 10.9% over FY20. The major expenses include power, labor, and chemicals to maintain and operate the MRVWTF, and equipment replacement identified in the Capital Improvement Plan. The District continues to benefit from the solar power Net Metering agreement with ECA Solar LLC. The District saved approximately \$41,184.81 in electrical costs in 2020 through this agreement. The District does not pay any capital or operating costs for the power generation and the facilities are located on commercial buildings located in Walpole, MA. In July, the District solicited and received bids for FY21 supply of chemicals, liquid oxygen, and propane at the MRVWTF.

The MRVWTF operated well throughout the year. In April and May, there were issues with ozone equipment failures, which were addressed by the District's vendor, Fin Tek. The Koch filtration system experienced some filter clogging at various points throughout the year and issues with valves, which required replacement. In July and August, operators addressed issues with cleaning of Stages 100 and 400 in the Koch filtration system, which required on-site maintenance by Koch Separation Systems. MRV operations personnel have done an excellent job maintaining the Koch system past its expected useful life expectancy of 5-7 years. The District is concerned about the aging membrane infrastructure and continues to investigate replacement options. The District began a Filter Replacement Evaluation Study in 2020. The purpose of the study is to evaluate capital and operational costs as well as logistics for implementation of in-kind replacement of the membranes or replacement with newer and more advanced technology membranes that significantly reduce operating costs, along with replacement of other infrastructure associated with the membrane filtration system. This study is ongoing and will be completed early in 2021 and is expected to lead to commencement of a preliminary design and later a final design of replacement of the membrane filtration infrastructure beginning in 2021.

Construction of the MRVWTF Primary Electric Service Replacement was completed and put online in May 2020. The purpose of the project was to complete electrical service upgrades to meet current standards and improve electrical reliability to the MRVWTF. The project was completed within budget.

Addition of a new District representative for the Town of Marion was required in 2020 due to the retirement of Mr. David Pierce. Ms. Meghan Davis, Marion Engineering Manager, was appointed to represent the Town of Marion and also named District Treasurer. Mr. Paul Silva retired from his duties as District Treasurer but continues to serve as a District representative for the Town of Mattapoisett. The District sincerely thanks Mr. David Pierce and Mr. Paul Silva for their years of service and outstanding contributions to the Commission.

Respectfully submitted,  
Mattapoisett River Valley Water District Commission

## 2020 MRVWSPAC Annual Report

### **History and Purpose of MRVWSPAC**

The Mattapoissett River Valley Water Supply Protection Advisory Committee (MRVWSPAC) was established in 1980 by the towns of Fairhaven, Mattapoissett, Marion and Rochester. The organization grew out of a concern for the aquifer underlying the Mattapoissett River watershed, from which all four towns draw water supplies. Special legislation was enacted in 1983 (Chapter 407) formalizing the Committee.

The MRVWSPAC is made up of three (3) representatives from each town for a total of 12 members. The MRVWSPAC holds public meetings on the second Tuesday of every month at 3:30 p.m. at the Fairhaven Board of Public Works in Fairhaven. Due to Covid-19, the MRVWSPAC has been meeting remotely using Zoom since April of 2020.

The MRVWSPAC welcomed Meghan Davis as a new representative for the Town of Marion in 2020 due to the retirement of long serving treasurer David Pierce. The MRVWSPAC acknowledges and thanks Mr. Pierce for his many years of dedication and commitment.

### **Mattapoissett River Valley Aquifer**

The Mattapoissett River and its aquifer provide fresh water for water supply, recreation and agriculture to portions of the entirety of five communities in Bristol and Plymouth Counties in Massachusetts. In 2020, our aquifer supplied approximately 1.88 million gallons per day for domestic and commercial users in the towns of Mattapoissett, Fairhaven, Marion and Rochester. The region experienced a Stage 2 Significant Drought as declared by the MA Department of Environmental Protection. Water conservation measures were implemented by the representative communities as a result of the drought.

### **Summary of 2020 MRVWSPAC Accomplishments**

#### Mattapoissett River Monitoring/Protection:

- Monitored stream flow and water levels in numerous locations along the Mattapoissett River. Maintained a database of critical water level data.
- Funded Annual Mattapoissett River Hydrologic Monitoring Report
- Formed active subcommittee to investigate invasive species and pond weeds within the Mattapoissett River Valley, including Snipatuit Pond, Snow's Pond, and Long (Black Pond).

## **Managing Water Resources for Our Future**

Serving Fairhaven, Marion, Mattapoissett & Rochester | P.O. Box 1055 | Mattapoissett, MA 02739 | [mrvwspac.org](http://mrvwspac.org)

- Purchased Hach meter to measure pH, conductivity, and total dissolved solids in the Mattapoissett River Valley. The meter has been utilized by the Snow's Pond Association to monitor water quality at Snow's Pond.
- Purchased monitoring well electronic devices (transducers) to replace older units that needed replacing.
- Environmental review of projects in the Mattapoissett River Valley:
  - Reviewed plans for the following projects within the watershed and sent comment letters to respective planning boards in Mattapoissett and Rochester:
    1. Site Plan Review – Village at Plumb Corner 44 2-bedroom age restricted development off Rounseville Road in the center of Rochester
    2. Solar Development – Braley Hill Road, Rochester
    3. Solar Development – Featherbed Lane, Rochester
    4. Solar Development – Snipatuit Road, Rochester
    5. Solar Development – Sarah Sherman Road, Rochester
    6. Solar Development – Randall Lane, Mattapoissett
    7. Solar Development – Cushman Road, Rochester
    8. ANR Application – Neck Road, Rochester
    9. ANRA Application – 342 Snipatuit Road, Rochester

The MRVWSPAC wishes to recognize the members of its consulting team for their excellent work and contributions in 2020:

Tata & Howard	<i>Lead environmental consultant</i>
Blair Bailey, Esq.	<i>MRVWSPAC Counsel</i>
David Watling	<i>Mattapoissett River Valley monitoring and data collection</i>
Meagan McCarthy	<i>Data reduction and graphing</i>
Nettles Design	<i>MRVWSPAC website management</i>

## Report of the OPEN SPACE ACQUISITION COMMISSION

**Our Task:** The primary task of the Open Space Acquisition Commission is to acquire open space. These purchases must fit some stated need and respect the financial contribution that has been made by the taxpayers. We will not buy just anything, and we will not waste your money by overpaying.

**Our Strategy:** We try to form a financial partnership on larger purchases to get more value for your dollars. This could mean direct grants to the town, participation with other conservation groups, or a bargain sale. Since the creation of the Open Space Acquisition Commission in 1999, we have partnered with the Commonwealth of Massachusetts, United States Department of Agriculture, Sippican Lands Trust and The Trustees (formerly the Trustees of Reservations). Since we first started working with other groups, we have received more than \$1,000,000 in grants to help reduce the cost of open space purchases to the town.

**Current Open Space Status:** When we talk about permanently protected open space, we are talking about land owned by private, public and nonprofit owners that has been dedicated to uses such as conservation or recreational use by deed. Also included is land owned by a non-profit land trust; or if the town received federal or state assistance for the purchase or improvement of

the property. Today, of the 9,007 acres of land in Marion, 3,495 are permanently protected open space.

Marion ownership of permanently protected open space is quite diverse. Those groups managing/owning open space include:

- Board of Selectmen
- Charles Washburn Memorial Trust
- Commonwealth of Massachusetts (Division of Fish and Game)
- Conservation Commission
- Marine Resources Commission
- Open Space Acquisition Commission
- Recreation Commission
- Sippican Lands Trust
- The Trustees (formerly The Trustees of Reservations)
- Water & Sewer Commission
- Wildlands Trust

Private land is considered protected if it has a deed restriction in perpetuity, if an Agriculture Preservation Restriction (none in Marion) has been placed on it, or a Conservation Restriction has been placed on it. Conservation Restrictions in Marion are held by an equally eclectic group of organizations (listed below):

- Buzzards Bay Coalition
- Commonwealth of Massachusetts (DEP)
- Commonwealth of Massachusetts (DFW)
- Conservation Commission
- Debt for Nature (United States Department of Agriculture)
- Open Space Acquisition Commission
- Sippican Lands Trust
- The Trustees (formerly The Trustees of Reservations)
- Wildlands Trust

The Open Space Acquisition Commission holds title to 631 acres. The largest parcel is the 282 acre Hales Brook Reservation which is managed by The Trustees at no cost to the Town. See the trail map at: [http://www.thetrustees.org/assets/documents/places-to-visit/trailmaps/EastOver\\_HalesSippican\\_TrailMap\\_2016.pdf](http://www.thetrustees.org/assets/documents/places-to-visit/trailmaps/EastOver_HalesSippican_TrailMap_2016.pdf). The next largest, and perhaps busiest, parcel is the Washburn Park Conservation Land (97 acres), which is used heavily by the dog walking community.

Links to trail maps for these and other open space parcels can be found online at <https://www.marionma.gov/open-space-acquisition-commission/pages/trailroad-maps>

### **2020 Open Space Additions:**

There was a small addition/subtraction to Marion's open space inventory in 2020. The Conservation Commission traded a less than ½ acre piece of Boat Yard Park that had been used as boat storage by A&J Boats since the early 1990's for a 4.2 acre parcel off Rezendes Terrace.

**Financial:**

The Open Space Acquisition Commission administers the Marion Land Bank Fund on behalf of the town. This fund is dedicated by state statute to costs associated with the acquisition of land. Any expenditure out of this fund to purchase land must be approved by Town Meeting. Currently the Fund holds \$396,125.40. We have made commitments for projects approved at the November 5, 2020 Special Town Meeting (The Hoff Conservation Project) for close to \$180,000, so the fund will be substantially reduced when these projects are completed.

**Projects:**

**Hoff Conservation Area:** Dr. James G. Hoff, a professor of Biology at UMass Dartmouth, wanted a wood lot for firewood to augment his home heating as a result of the 1979 oil crisis. Hoff purchased 33.7 acres from the Acushnet Sawmill Company on the west side of Route 6. 41 years later this property was placed on the market. This project to protect over 33.7 acres on the west side of Route 6 (Mill Street) grew into a project to protect over 42 acres, with sets of landowners and two conservation partners. The Hoff parcels (33.7 acres) have been on our radar for about 10 years. Listed originally for \$585,900, we were able to negotiate a price of \$300,000. One of the key conditions of that price was to have a closing in 30 days. Talking to our conservation partner, the Sippican Lands Trust (SLT), we realized that we would be unable to raise the required amount in the time frame demanded by the seller. To protect our negotiated price of \$300,000 we asked the Buzzards Bay Coalition to step in as an intermediate owner. The SLT started an intense fund drive within a shortened time window and was able to commit \$75,000 to lower the cost to the town. We were also fortunate to secure a \$50,000 grant from the Buzzards Bay National Estuary Program (BBNEP) Mini-Grant Program. This program is funded by the BBNEP, Executive Office of Energy and Environmental Affairs, and U.S. Environmental Protection Agency's Southeast New England Program.

In order to eliminate the long term management burden and maintenance costs associated with ownership of the property, we asked the SLT to hold the fee interest on the property, which they have graciously agreed to do.

The final paperwork to protect this 33.7 acres, which has been independently appraised at \$310,000, will be finalized in early 2021. The Hoff Conservation Restriction (the Town's interest in the property), which will use \$180,000 of the Marion Land Bank Fund, has been appraised at \$257,500.

Two sets of adjacent landowners, Randy & Merle Parker and Steve Clark & Tina Welch, graciously offered to donate to the Town Conservation Restrictions on a portion of their properties adjacent to the Hoff lot. These generous donations contributed to our grant evaluation score and directly led to the town being awarded a \$50,000 grant. These Conservation Restrictions are expected to be completed in 2021.

**Senior Work:** Commission member Casey Gunschel heads up the trail maintenance program for the properties overseen by MOSAC. These conservation trails provide residents with opportunities for walking, bird watching and enjoying nature. It's extremely helpful having volunteers walk the trails to check on their conditions, remove small trash items, and to see if there is any abuse. Basic maintenance consists of using hand pruners or loppers to cut back plants that are growing into the trails. Casey works with the Council on Aging to engage with

participants of the Senior Work program to undertake this important work. This project has been on hold due to COVID-19.

If you are interested in participating in this program, contact the Council on Aging.

**Point Road Bike Path:** The Marion Open Space Acquisition Commission was awarded a Community Preservation Act grant to construct a multi-use pathway along Point Road. The proposed  $\frac{3}{4}$  mile off-road pathway will provide safe year-round transportation and recreational opportunities for a variety of users and purposes as well as providing increased access to various under-utilized conservation areas.

Although we had an initially aggressive timetable, we have been requested by the DPW to supply more engineering detail to our Conservation Commission permit application. We are now working on responses to these requests.

**Little Neck Village:** In January 2019, we became aware that the Conservation Restriction required as a permit condition for Little Neck Village had never been completed. Throughout 2019 and 2020 we have worked with the Massachusetts Division of Conservation Services, the Natural Heritage and Endangered Species Program, the Sippican Lands Trust, and the Little Neck Village folks to get this Conservation Restriction completed. We are anticipating finishing this process in 2021.

**Planning:** We have started the process to take a new look at our criteria for evaluating open space purchases. The criteria we currently use was developed through surveys sent to Marion Residents in the 1990's; so it's time for an update. One of our challenges is how to best reach out and get input from Marion residents.

We have posted the Open Space and Recreation Survey results (as well as some other related surveys dating from 1986 until the present at <https://www.marionma.gov/open-space-acquisition-commission/pages/open-space-and-recreation-survey-information>

Our participation in the Stewards of Community Open Space's efforts to update the Open Space and Recreation Plan have been minimal as the Steward group met only twice in 2020.

If you have any questions about anything related to open space please feel free to email us at [openspace@mariopnma.gov](mailto:openspace@mariopnma.gov), or email/call one of the individual members.

Respectfully submitted,

John Rockwell, Chairman  
Amanda Chace  
Casey Gunschel

**Report of the  
COMMUNITY PRESERVATION COMMITTEE**

To the Honorable Board of Selectmen:

At the June 2020 Town Meeting the CPC recommended ten Articles for Community Preservation Act funding:

1. \$1,000 to purchase a bicycle rack to be installed at the Planting Island Causeway Beach. This article was approved
2. \$5,000 to paint the recently installed fencing at Washburn Park. This article was approved.
3. \$25,000 to continue the archiving of the collection of the Sippican Historical Society. This article was approved.
4. \$25,000 to update and expand the Marion Historic and Cultural Inventory. This article was approved.
5. \$18,179 to purchase and install inclusive playground equipment at the Sippican School. This article was approved.
6. \$5,675 to purchase 250 cast aluminum grave markers to be placed on veterans' graves at town cemeteries. This article was approved.
7. \$40,000 to build an outdoor pavilion at Osprey Marsh. This article was approved.
8. \$307,760 to waterproof the basement of the front section of the Marion Town House constructed in 1876. This article was approved.
9. \$45,000 to perform a feasibility study for the construction of additional Senior Housing. This article was approved.
10. \$8,000 to update the Town of Marion Housing Production Plan. This article was approved.

Also approved was an Article to provide \$2,000 of FY21 funding to the Community Preservation Committee for administrative purposes.

Respectfully submitted,

Jeff Doubrava

## MARION CAPITAL IMPROVEMENTS PLANNING COMMITTEE REPORT TO SELECT BOARD AND FINANCE COMMITTEE

The purpose of the Capital Improvements Planning Committee's (CIPC) is to assist the Town Departments develop capital project requests as part of the annual budget process that is approved by residents at the Spring Town Meeting. Capital Projects are defined as projects or assets that cost at least \$10,000 and have a useful life of at least 5 years. Each year, we also compile a 10 year Capital Plan as a forecast for future capital needs based on new or revised plans that our Department Heads submit to the Committee. In the summer, the CIPC visits various locations to further understand capital plans and needs. Sites visited in 2020 included the Old Rochester Regional High School and the Marion Town House.

During our Capital Project review process with Department Heads this year, the CIPC sponsored a joint meeting with Capital Committee representatives and School Board members that comprise our regional school district (Marion, Mattaposett & Rochester). The goal was to begin to discuss the School District's capital needs with all three towns Capital Committee's in an efficient manner. All of the participants agreed this was helpful to the process and should be continued in the future.

As of this date, twenty projects, totaling \$1.4 million were submitted to the CIPC by the Town's Department Heads and the ORR School District for FY22. Five projects were submitted by the Dept. of Public Works for just over \$600K. Fifteen other projects, totaling almost \$800k, were submitted by the Police, Facilities, Marine, Schools, Council on Aging and Recreation Departments.

Projects were rated & ranked by the CIPC based on Department priority, budget impact, regulatory requirements, public safety, equipment replacement, efficiency, useful life, cost reduction, benefit to the Town & alignment with the Master Plan. Our objective is to provide an impartial perspective for the Finance Committee, Finance Director, Town Administrator and Select Board as they develop a balanced budget for the next fiscal year. Attachment #1 contains the ranking results for FY22.

The top ten ranked projects represent 64% of the total for FY22:

	Dept	FY 22 Capital Project Requests	Cost (000's)	Funding
1	DPW-Water	Hydrant Replacement	\$50	Water Enterprise
2	DPW-Sewer	Comm Center & Fire Station 1 Sewer Line	\$214	Sewer Enterprise
3	DPW-Sewer	I&I Mitigation	\$190	Sewer Enterprise
4	Police	Ballistic Vests	\$24	General
5	Facilities	Fire Station #1 Restroom Renovation	\$10	General
6	DPW-HWY	F550 2007 Truck Replacement	\$85	General
7	DPW-HWY	F550 2009 Truck Replacement	\$85	General
8	Facilities	Town Hall Generator and Annex Siding	\$100	General
9	Marine	Pump-out Boat Outboard Replacement	\$16	Marine Enterprise
10	Schools-ORR	Track Rehab	\$105	General

The funding sources for all of the twenty FY22 Capital Projects is estimated as follows:

	General	Sewer Enterprise	Water Enterprise	Marine Enterprise	Total
Amount (000's)	\$909	\$404	\$50	\$16	\$1,379

Attachment 2 is the projected 10 Year Capital Plan that is updated each year based on the submissions from the Town Department Managers and the ORR School District. It's important to point out that current DPW 10 year Capital estimates total \$33 million (Water Department: \$6.3 million, Sewer Department: \$26.7 million). Discussions will need to continue to occur over the next several years as the Town works to solve the complex issue of an aging infrastructure.

Respectfully,

Paul Naiman, Chair  
Dick Giberti, Secretary  
Casey Barros

Dave Janik  
Steve Nojeim  
John Waterman-Select Board Representative

John Menzel-Finance Committee  
Representative

## **Report of the MARION TREES AND PARKS COMMITTEE**

As with most things during COVID, our committee could not meet in person or hold an Arbor Day celebration this spring.

We did continue with our work on reviewing the health of our street trees in Marion. We removed about 12 hazardous trees and trimmed at least 25 more. We have also decided to hire Bartlett Tree to do an inventory for many of the main streets in the village. That is where most of the maples planted in the 50's are now suffering and need replacement. We hope to come up with a plan for prioritizing the removal and replanting over the next 5 years.

With the severe drought in SE Mass, we will be seeing more damage to our already stressed trees. With the recent fall rains, it is our hope that many will recover, but disease can easily set in when trees are stressed. So please be attentive to trees in your area.

Our Tree Warden has been diligently removing and trimming hazardous trees and his work is ongoing. If you see a damaged tree, please call the DPW.

As the chair of our Tree Committee, I have consulted on the new landscaping at the BC Park, Town House and Library. I hope you all have seen and admired the new Elizabeth Taber statue in her new setting across from the Town House in the BC Park. And this spring the Town House will be planted with new trees and shrubs. It is really coming together due to the efforts of so many.

Margie Baldwin, chair  
Lee Gunschel, Tree Warden  
Margot Stone  
Tinker Saltonstall  
Suzy Titus  
Jim Stewart  
Susannah Davis

## **Report of the MUSIC HALL ADVISORY COMMITTEE**

### **The Music Hall Advisory Committee in the time of COVID**

While most of our bookings ended during the Ides of March, we took the time to focus on our procedures and the maintenance of our building. We did host Frank McNamee's very successful Antiques Auction in October. Otherwise, the building was open only to Select Board meetings and is now closed to the public.

The very sad news is that one of the original members of the Music Hall Advisory Committee, Truman Terrell, passed away. Always a very gentle man, he not only played the piano at so many Marion occasions, he also lovingly attended to the care of the piano in the Music Hall. It was our fond hope that he would play at the dedication of the Paulsen piano.

Tami Daniel, our coordinator, worked with Debbie Paiva to revise our rental guidelines. Two more Cecil Clark Davis paintings were hung with two more to go. The room is beginning to look more like a music hall than a basketball court! For the loan of the paintings, we have our partner, the Sippican Historical Society, to thank.

Shaun Cormier, Facilities Manager, and his team continue to work on the restoration of the Music Hall. This year they completed the very arduous task of restructuring the basement. Also, a lot of attention was given to energy deficiencies and a new air purifier was installed in the main hall. Next year, Shaun will tackle the gutters, sidewalks, exterior painting and the Main Hall floors.

In celebration of the installation of the magnificent Elizabeth Taber sculpture in the Bicentennial Park, several private citizens replanted the horse trough built to honor Elizabeth Taber across from the Music Hall. The maintenance of the trough will be included in the Landscape Maintenance Fund for the Music Hall. Also, the Committee voted to pay for the plantings for the veteran's statue on an annual basis out of the Music Hall Restoration Fund.

The Resilience Award in the time of COVID goes to committee member Phil Sanborn, who put on 5 pop up concerts on the lawn of the Music Hall. Phil and his musician friends gathered gratis to provide music and levity in these dark times. Among his friends is Marcus Monteiro, jazz musician and new member of the Music Hall Advisory Committee.

As always, so many thanks to our committee members, the Sippican Historical Society, Tami Daniel, Shaun Cormier and his crew, and Randy Parker, the Select Board Representative.

Sincerely,

Christina Bascom, Co-chair  
Margot Stone, Co-chair  
Lynn Crocker  
Clare Healy Foley  
Frank McNamee  
Marcus Monteiro  
Tinker Saltonstall  
Phil Sanborn  
Helene Sughrue

**Report of the  
CEMETERY COMMISSION**

The Cemetery Commissioners continue to do work in the town's cemeteries; trimming trees, removing overgrown shrubs, headstone repair and general upkeep. The DPW has been doing a lot of this work which has made a huge difference.

In an ideal world we would try to plant more trees and shrubs and repair the grass as well as improve the general appearance of our town cemeteries. With a lack of funds and a severe drought every summer this has not been feasible. However, we still want to do this in the future.

With that in mind we are reviewing our cemetery fee structure which is well below our surrounding towns. So we may be instituting a new fee schedule in consultation with the Select Board.

If you have any questions or concerns, you may call the DPW or any member of the Commission.

Margherita Baldwin  
Elizabeth Dunn  
Helen Hills  
Pete Smith

## **REPORT TO THE TOWN OF MARION FROM THE COMMISSIONERS OF THE SOUTHEASTERN REGIONAL PLANNING & ECONOMIC DEVELOPMENT DISTRICT (SRPEDD)**

The Town of Marion is a member of the Southeastern Regional Planning and Economic Development District. Originally founded in 1956, SRPEDD (pronounced “sir-ped”), is one of 13 regional planning agencies (RPAs) across the state and one of approximately 550 across the country.

SRPEDD serves 4 cities and 23 towns in southeastern Massachusetts. Through our work, we address common issues facing the region, including economic development, growth and land use, safe and efficient transportation, environmental stewardship, municipal partnerships, community development and affordable housing, and general planning. A Commission of local mayors, selectmen, planning board members, and at-large members govern SRPEDD. Federal and state grants, local assessments, and local contracts fund our activities. In 2020, the Town of Marion paid \$919.18 to SRPEDD, based upon an assessment of 18.732 cents per capita. SRPEDD’s annual budget in 2020 was \$3,145,922.

SRPEDD also serves as the region’s staff for the Southeastern Massachusetts Metropolitan Planning Organization ([SMMPO](#)) and the regional Economic Development District ([EDD](#)) with the U.S. Economic Development Administration (EDA). In both roles, SRPEDD works with numerous partners to program tens of millions of dollars to directly invest in our region’s infrastructure and community development.

Please visit SRPEDD’s recently updated agency website at [www.srpedd.org](http://www.srpedd.org) to review our work, read our [2020 Annual Report](#), and tour new projects, including: our [Drone Program](#) and [Virtual Building Tours](#); our [Regional Housing Services Office](#) (RHSO) feasibility study; our [Complete Streets](#) and [Multi-Use Path](#) transportation project; and various municipal projects, such as [Redevelopment Studies](#) and [Community Master Plans](#). Our website also includes departmental web pages, a calendar of events, and recent news.

Please do not hesitate to [contact us](#) with any questions, concerns, or project ideas.

### **Local citizens/officials representing Marion in SRPEDD activities:**

Norman Hills on the SRPEDD Commission.

Norman Hills on the Joint Transportation Planning Group (JTPG).

Matthew McPhee- General Foreman  
Denise DeLuca – Administrative Assistant

### **REPORT OF PLYMOUTH COUNTY MOSQUITO CONTROL PROJECT**

The Commissioners of the Plymouth County Mosquito Control Project are pleased to submit the following report of our activities during 2020.

The Project is a special district created by the State Legislature in 1957, and is composed of all Plymouth County towns, the City of Brockton, and the town of Cohasset. The Project is a regional response to a regional problem, and provides a way of organizing specialized equipment, specially trained employees, and mosquito control professionals into a single agency with a broad geographical area of responsibility.

The 2020 efforts were directed at larval mosquitoes starting with the spring brood. The Project ground and aerial larvicided 11,396 acres and this was accomplished using Bti, an environmentally selective bacterial agent. An additional 311 acres were treated as part of a trial studying the effectiveness of methoprene on mosquitos in cedar swamps. Upon emergence of the spring brood of mosquitoes, ultra-low volume adulticiding began on June 1<sup>st</sup>, 2020 and ended on September 25<sup>th</sup>, 2020. The Project responded to 17,923 requests for spraying and larval checks from residents covering all of the towns within the district.

The Department of Public Health (DPH) has developed an “Arbovirus Surveillance and Response Plan” for the state. The Plan creates a system which estimates the human risk for contracting Eastern Equine Encephalitis and West Nile Virus using several factors including the number of infected mosquitoes. In 2020 there was significant EEEV activity in the district. Based on guidelines defined by the Plan, all towns in Plymouth County Mosquito Project started the season at “Low Level Risk” for Eastern Equine Encephalitis. The following towns remained at low risk: Abington, Brockton, Cohasset, Duxbury, Hanover, Hingham, Hull, Marion Marshfield, Mattapoisett, Norwell, Rockland, Scituate, and Whitman. The towns at moderate risk were: Lakeville, Pembroke, and West Bridgewater. The towns ranked at High risk were: Bridgewater, East Bridgewater, Hanson, Kingston, Plympton, Plymouth, Rochester and Wareham. The towns at critical risk for EEEV human infections were Carver, Halifax, and Middleboro. Two residents of the district contracted EEE and two other infections were associated with the district.

The Commonwealth of Massachusetts responded to the EEEV activity by conducting wide scale aerial adulticiding in early August. The application occurred over much of the district and encompassed 200,000 acres. Applications of this kind are complex and involve a large number of state agencies including DPH, Massachusetts Department of Agriculture (MDAR) and

The State Reclamation and Mosquito Control Board (SRMCB). The Project assisted with the application including supplying equipment and helping to document the efficacy of the application.

West Nile Virus activity occurred predominately in and around Boston. Statewide there were 8 human cases, none of them were in the district. DPH estimated the risk of WNV human infections to be low for all of the district for the entirety of the season. As part of our West Nile Virus control strategy a total of 60,450 catch basins were treated with larvicide in all of our towns to prevent WNV.

The Project participates in DPH's mosquito surveillance program. As part of that program we collected over 70,000 mosquitoes and submitted 23,267 mosquitoes for testing. The mosquitoes were combined into 608 pools. DPH also tested 13,588 mosquitoes from the district. In all there were 61 isolations of EEEV from mosquito samples. They were from the towns of Bridgewater, Carver, Hanson, Kingston, Middleboro, Plympton, and Wareham. There were 7 WNV isolations from Halifax, Hanson, Middleborough, and Plympton.

The health threat of EEE and WNV continues to ensure cooperation between the Plymouth County Mosquito Control Project, local Boards of Health and the Department of Public Health. In an effort to keep the public informed, EEE and WNV activity updates are regularly posted on the Department of Public Health website.

The introduced mosquito *Aedes albopictus* has the potential to become a serious pest and a vector of disease. The mosquito has been present in the Massachusetts since 2009. In conjunction with DPH we have been monitoring *Aedes albopictus* expansion in the state. The larvae live in containers and are closely linked with human activity. They are especially associated with used tires. We conducted surveillance for *Ae. albopictus* at 8 locations. This year we did not detect the mosquito. The Project began a tire recycling program in October 2017. During the 2020 season we recycled 1,960 tires bringing us to a total of 11,524 tires for the program.

The figures specific to the town of Marion are given below. While mosquitoes do not respect town lines the information given below does provide a tally of the activities which have had the greatest impact on the health and comfort of Marion residents.

**Insecticide Applications:** Our greatest effort has been targeted at mosquitoes in the larval stage, which can be found in woodland pools, swamps, marshes and other standing water areas. Field Technicians continually gather data on these sites and treat with highly specific larvicides when immature mosquitoes are present. In Marion 344 larval sites were checked.

During the summer 564 catch basins were treated in Marion to prevent the emergence of *Culex pipiens*, a known mosquito vector in West Nile Virus transmission.

Our staff treated 1,027 acres using truck mounted sprayers for control of adult mosquitoes. More than one application was made to the same site if mosquitoes reinvaded the area. The first treatments were made in June and the last in September.

**Water Management:** During 2020 crews removed blockages, brush and other obstructions from 2,115 linear feet of ditches and streams to prevent overflows or stagnation that can result in mosquito production. This work, together with machine reclamation, is most often carried out in the fall and winter.

**Mosquito Survey:** Our surveillance showed that the dominant mosquitoes throughout the district were generally *Coquillettidia peturbans* and *Oc. canadensis*. In the Town of Marion the three most common mosquitoes were *Cq. peturbans*, *Oc. Canadensis* and *Cx. pipiens/restuans*.

Education and Outreach: The Project hosted an event with the Governor to raise awareness of EEE in Massachusetts. The event was broadcast live and reached thousands of residents in the Commonwealth. Our phone system has been updated to make it easier for residents to reach us during the peak season and our website is continually updated with information about meetings and the annual budget. It also includes educational handouts to provide more information and better describe all the Project's services.

We encourage citizens or municipal officials to visit our website at [www.plymouthmosquito.org](http://www.plymouthmosquito.org) or call our office for information about mosquitoes, mosquito-borne diseases, control practices, or any other matters of concern.

Sincerely,

Ross Rossetti  
Superintendent

## **Report of the MARION HISTORICAL COMMISSION**

The Marion Historical Commission became active again in the fall of 2019. Our first task was to develop a new mission statement:

### **MISSION**

The Marion Historical Commission, with the Town's adoption of MA General Laws Part I Title VII Chapter 40 Section 8D, has been established for the primary purpose of identifying and protecting the Town's historic resources. This includes buildings, structures, objects and sites of national, state, or local significance based on an understanding of their historic, architectural, and/or archeological importance.

The primary responsibility of the Marion Historical Commission is to coordinate all community-wide historic preservation planning on behalf of the Town. This includes educating the public about the identification of historic resources and the importance of preserving and protecting such resources. The Commission also serves as a public advocate to advise the Select Board and other local agencies regarding matters of preservation, protection and redevelopment of historic buildings, structures, and sites which may be under consideration by said boards.

Our next task was to develop a webpage on the Town's website. With assistance from Gil Hilario, Town Planner, this was achieved. Information on current Commission activities and local preservation resources is listed on the site.

As the local historical commission, we are asked to provide comment on Federally and State-supported projects in Marion that could potentially impact historic and archeological resources. We have provided input on several projects this year.

The Commission's primary objective at this time is to develop a comprehensive inventory of all historic and cultural resources in the town. Under guidance from the MA Historical Commission, standard forms, procedures, trainings and technical support are available to us. We were successful in our grant application to the MA Historical Commission, and were awarded a \$15,000 matching grant for our initial survey efforts to update and simplify the forms for properties in the Marion Village area. The Sippican Historical Society provided the \$15,000 match. A preservation consultant has been contracted with to perform this work, with its completion expected in the summer of 2021.

We were also successful in obtaining a \$25,000 grant from the Community Preservation Committee to continue work on updating and expanding the historic inventory work done in 1998-2004. A preservation consultant has been selected to complete a study of Marion's Cape Verdean community, with a focus on areas along "upper" Point Road near Wareham Road and along Mill Street further to the west. The balance of these funds will be used as a match for a future MA Historical Commission grant in 2021, or to continue survey work on our own if state funds are not available.

Another ongoing concern has been the uncertain fate of the Percy Browne House, 192 Front Street, often referred to as the TenBrook House after its most recent past owner. Designed by renowned American architect Henry Hobson Richardson in 1880-81, it is now owned by Tabor Academy. We hope to work with Tabor in the coming year to assure the preservation of this important landmark in a manner which suits Tabor's needs but also acknowledges its importance at the national level.

We have developed a Welcome Letter to new buyers who purchase properties that are of historic merit and/or are included in the Historic Inventory, offering information and guidance to encourage historically and architecturally sensitive renovations, should improvements be planned.

We continue to build a close relationship with the Sippican Historical Society, the primary repository for archival documentation of the town's history. Once pandemic restrictions are lifted, we hope to promote awareness of historic preservation objectives with guest lectures on topics relevant to Marion's past and future character. We also hope to develop a GIS mapping system of the historic inventory that other Town boards can make use of in their decision-making processes.

Special thanks to Gil Hilario, Town Planner, and Jay McGrail, Town Manager, for their guidance and assistance in promoting our mission.

We encourage all Marion residents to review our webpage, [www.marion.gov/historical-commission](http://www.marion.gov/historical-commission), and to contact us with suggestions of future projects or with information to share about your historic or architecturally significant property.

Respectfully submitted,

Meg Steinberg, Chair  
Sidney Bowen  
Bryan McSweeney  
William Tift  
Jane Tucker

## **Report of the ELIZABETH TABER LIBRARY**

2020 was dominated by the chaos of a pandemic that found the library, along with the rest of the globe, struggling with how to reorient itself in a very different world. How does a library continue to serve the community when the community can't safely visit the library? During the confusion of the early days of the pandemic shutdown, the Elizabeth Taber Library (ETL) was determined to find ways to continue to distribute materials while determining what a safe restoration of library services would entail. While patrons were prevented from checking out books due to the closure of the building, the library began distributing reading materials by other methods. The ETL stocked Little Free Libraries and began to hold free giveaways of donated books and magazines outdoors in the Peggy Repass memorial courtyard. In response to a national puzzle shortage, the ETL began to include puzzles, games, and educational toys in these giveaways. Dozens of puzzles and hundreds of fiction, non-fiction, and children's reading materials were distributed during the course of these giveaways, and generous patrons were quick to replenish the supply of donated books upon request.

While circulation services continued to be interrupted, the Marion Library worked to expand its digital offerings. An updated, modern website for the library was launched in an effort to make navigating online resources easier. New modes of communication were created including a direct contact email address for patron questions and a "book a librarian" online sign up to allow library staff to continue to offer reader's advisory and tech help services. The library amplified advertising of digital services including online access to local and national newspaper publications, Artistworks, Acorn television streaming, IndieFlix, and other online resources. The ETL acquired a subscription to CreativeBug, where hundreds of library patrons have viewed professional crafting tutorials for free. The ETL increased its number of titles available in the Overdrive Collection of free downloadable e-books, audio books, and digital magazines. In 2020 there were over 10,000 checkouts of these digital materials from Marion patrons via Overdrive and the Libby app.

While the library's doors have been closed to patrons, program planning has had to pivot towards online events, including a virtual Summer Reading Program. Virtual events this year included cooking and baking classes, crafting events, wildlife encounters, yoga classes, a puppet craft, a magic show, and scientific explorations. The Elizabeth Taber Library's Children's Librarian, Rosemary Grey, led weekly virtual storytimes, lunch bunch online gatherings, STEAM challenges, and more.

In April, a curbside distribution system was designed and operated by the Elizabeth Taber Library staff. Throughout the year these efforts were refined and improved through trial and error, and expanded with additional curbside pick-up days along with additional available patron sign-ups per day. Since instituting curbside pickup in April the staff at the Marion library has performed over 8,700 transactions, and since March the library has seen almost a hundred new library card sign ups.

The Elizabeth Taber library began to take efforts focused on reducing patron's potential isolation and boredom. Home book delivery for patrons with mobility issues was reinstated thanks to the

Marion Council on Aging. Remote Tech Help was made available over the phone or online to continue to help patrons adapt to new technology and devices, and to guide those interested in learning to download ebooks or access digital offerings. Reader's advisory services, online collection highlights, and Book Bundles were created to aid patrons in selecting materials without the benefit of in-library browsing. The library expanded the Library of Things collection, which allows users to check out non-reading materials. The Library of Things now includes learning and STEAM toys, sensory toys, musical instruments, art and crafting equipment including a beginner's pottery wheel, a portable record player and vinyl record collection, a magic set, telescopes, microscopes, 3D pens, and more. In order to encourage family participation and collective play, the library added over a dozen board games for all ages including escape room mystery boxes. To promote outdoor activity, the ETL added outdoor exploration toys, lawn games, sports equipment, and even a portable obstacle course for kids. The ETL began a monthly adult craft, which includes distributing project materials from the library, allowing crafters to participate in creative projects at home. In the fall, a socially distanced outdoor book sale was held thanks to the efforts of the Elizabeth Taber Library's team of dedicated volunteers.

Throughout the year library staff has worked behind the scenes on various complex and large scale library improvement measures. The staff undertook a complete reorganization of the fiction section to allow for an improved browsing experience for patrons. The non-fiction collection was updated and modernized. The Young Adult fiction section was expanded to allow additional room for the growing collection. Signage was updated. The ETL committed itself to improving the diversity of its collection along with investing a larger portion of the library materials budget to ordering from Black owned businesses and independent bookstores. Building improvements were made, including installing new carpeting and new ceiling tiles. During this time Covid safety measures and building improvements were implemented in anticipation for an eventual reopening, including installing glass shielding around the circulation desk, adding protective shielding on low shelving, creating socially distanced and shielded public computer stations, installing hand sanitizer stations, adding book drop carts at the end of library aisles for safe material handling, ordering sanitizing equipment and PPP equipment for staff, implementing safe handling techniques and procedures for the book drop, and creating additional portable work stations to encourage social distancing for staff in the library. The library continues to reincorporate services including printing, faxing, scanning, 3D printing, and, more recently, in-person computer use.

Throughout a challenging year everyone at the Elizabeth Taber Library has remained dedicated to the library's mission to serve the Marion community by connecting people to information, resources, and entertainment.

Elizabeth Sherry  
Library Director

Jen Jones  
President, Board of Trustees

## **Marion Natural History Museum 2020 Annual Report**

### **To the Honorable Board of Selectmen:**

It is with great pleasure that we report the Museum is operating in good order and continuing to provide quality environmental education programs for the Tri-town area despite the limitations due to COVID.

Our after-school programs were running at full capacity until we had to discontinue onsite activities. We were also able to start a series of Wednesday morning programs for seniors which were very well attended until the virus forced us to discontinue those as well. We offered a program on butterflies and one on native plantings for our area. We look forward to resuming these activities post-COVID.

In early fall we hosted two outdoor programs for adults, one on the topic of "Forest Bathing," a practice of taking in nature through the senses, led by author Nadine Mazzola. The other program was on "Nature Journaling," led by artist Patricia Cassady. Both were limited in size due to COVID restrictions, however, were very well attended. The Museum wishes to thank the Marion Cultural Council for their support in helping us to provide these programs.

In October, the museum hosted a program celebrating Archaeology month at the Marion Music Hall, with Archaeologists Dianna Doucette and Erin Flynn of Public Archaeology Lab, Inc. out of Providence, RI. While attendance was capped due to COVID restrictions, turnout was excellent.

The Board is especially grateful to the Town of Marion for helping to fund the Museum for FY 21. The funds have been used to expand our museum hours and begin offering online programs for the students and adults on the topics of native plantings, insects, cranberries and our upcoming presentation on the Great Backyard Bird Count. The Museum is also grateful for the assistance and support of the Marion Cultural Council and the Marion Harbormaster Department, especially to the Harbormaster, Isaac Perry, with our after-school, summer, and evening programs.

The Museum Board of Directors expresses our gratitude for and acknowledges the dedicated service of our Director, Elizabeth Leidhold. The Museum could not function without Elizabeth's efforts to create and coordinate our extensive array of programming and manage our collections.

### **The Marion Natural History Museum conducted the following programs in 2020:**

#### **After-school – Winter/Spring 2020**

**January 29 - Rock Hound 101.** Amateur geologist Jim Pierson gave us an overview of his extensive fossil and mineral collection. He also went over the equipment used while collecting these artifacts.

**February 12 - Great Backyard Bird Count.** This is an important citizen science event that helps researchers at Cornell Lab of Ornithology and National Audubon Society look at bird populations all over the world. Justin Barrett gave us ideas on identifying and counting birds, and how to record this information into the world-wide database. Justin is the Senior Manager of Development Operations at Manomet, is the president of the Nasketucket Bird Club in Mattapoisett and serves on the Marion Natural History Museum board.

**February 26 - Soil Critters.** Maggie Payne Soil Scientist with the U.S.D.A. led us in an exploration of critters you might find in your average garden, lawn and compost pile. The students had fun looking for the

creatures and learning which soil is the healthiest. Barret was named the 2020 Soil Scientist of the Year from the national Cooperative Soil Survey. She serves on the Marion Natural History Museum board.

**March 11 - Rain Gutter Regatta.** With the help of engineer Mark Whalen, the students had an opportunity to develop their own sailing vessels and “race the clock” as well as each other. The participants learned a little about buoyancy, stability, lift and drag forces.

----- *Onsite museum activities shut down due to COVID 19*

**April 29 - Identifying Butterflies and Moths.** Entomologist Blake Dinius gave us an introduction via Zoom to how to identify butterflies and moths by their markings, natural history and anatomy. We also heard about how to collect a specimen for close up examination.

**November 18 - Vimeo presentation - Starting a Natural History collection.** We took a look at some of the museum’s collections and shared our own collections. We saw examples of labeling, storing, and the importance and recording who collected the item, and labeling when and where the specimen came from.

#### **Adult/Seniors Programs:**

**February 26 - Butterfly Guy.** We hosted Joe Dwelly the “Butterfly Guy” who shared with us his vast knowledge of all things butterfly and pollinator related. We had a chance to escape winter while viewing his presentation and had a chance to ask our questions about our native pollinators.

**March 4th - Wildflowers of Southeastern Massachusetts.** We hosted a presentation with Martha "Mike" Schroeder focusing on the wildflowers in our area. We learned about which plants are native, and which were introduced.

----- *Onsite museum activities shut down due to COVID*

**May 5 - The Value of Native Planting.** Vimeo presentation with Martha “Mike” Schroeder discussing the importance of native plantings. Attendees “toured” Mike’s beautiful riverside property in Lakeville showing us many of the indigenous plantings to be found in our area.

**September 26 - Forest Bathing.** Our Guide was Nadine Mazzola, an award-winning author and Certified Forest Therapy Guide. Nadine led us on a “Forest Bathing” walk and demonstrated the benefits of spending time in nature as a wellness practice and an effective way to manage stress.

**October 3 - Nature Journaling.** We explored our creative side by learning the art of Nature Journaling, which is the practice of taking your observations of nature and expressing them by drawing and/or writing in your own individual style. Our journaling guide was Tricia Cassidy, local artist, educator and naturalist who has done many similar programs for Soule Homestead Education Center in Middleboro among others.

**October 24 - “Archaeology Day” with Public Archaeology Labs, Inc.** Archaeologists Dianna Doucette & Erin Flynn at the Public Archeology Laboratory. We were able to offer this program at the Marion Music Hall while observing COVID restrictions in the number of participants and wearing of masks. Dianna and Erin Flynn presented an overview of the history of Native American and early European settlement of Marion based on information from various cultural resource management investigations.

## **Family programs**

**November 13 – Cranberries.** This fruit has been a valuable product from the southeastern Massachusetts area for many years. Dawn Gates-Allen of the Cape Cod Cranberry Growers Association gave us a virtual tour of her bog and some insight into the life of a bog-owner, including the many challenges they face. We had an opportunity to get many of our questions answered and it was fun seeing the bogs from her perspective.

## **About the Museum**

In 2020, our long-time board member and museum chairman Sarah Porter left the museum and is to be thanked for her many years as member and Museum president. Karen Alves volunteered to be our new President. Mike Cronin took over the Treasurer's position, and Justin Barret assumed the role of Membership coordinator. While our long-term board member David Pierce retired to Vermont, he has remained on our Board joining us in Zoom meetings.

The mission of the Marion Natural History Museum is to spark natural curiosity, foster environmental stewardship, and inspire lifelong learning by making science and technology accessible to all. We specialize in the natural history of our local area, and provide exhibits, lectures, and educational programs for youth and adults. In 2022, we will celebrate our 150th anniversary.

## **Respectfully submitted,**

**Karen Alves**, *President*

**Marc Sylvia**, *Vice President*

**Maggie Payne**, *Secretary*

**Mike Cronin**, *Treasurer*

**Justin Barrett**, *Membership Coordinator*

**Ted Brainard**

**John Cederholm**

**Linda Harju**

**David Pierce**

**Sarah Porter**

**Elizabeth Leidhold**, *Executive Director*

## **2020 ORCTV Annual Report for Marion**

After experiencing the most successful year in our organization's history in 2019, the year 2020 found Old Rochester Community Television having to cope to the sudden 'new normal' that is the COVID 19 pandemic. While the year and the circumstances surrounding it were at times grim, ORCTV found ways to adapt and overcome obstacles, to find a silver lining during difficult times.

This past year ORCTV filmed and broadcast nearly 150 government meetings and forums in Marion. Many of these meetings had to be held remotely as most town buildings were closed to the public for much of the year. ORCTV worked closely with town officials to create socially distanced Town Meetings using our technology to include input from residents while adhering to COVID safety guidelines. These meetings spread the public out throughout many rooms in Sippican School for the spring meeting and ORRHS during the fall meeting, using remote technology to distance voters while at the same time allowing them to participate safely during the meetings in real time. The challenges that were overcome helped the town reach a quorum of registered voters during each meeting preventing delays and rescheduling of Town Meeting.

Old Rochester Community Television worked with a variety of Marion based organizations and groups during 2020, bringing locally produced programs and events to our viewing audience that may have otherwise been canceled due to the pandemic. ORCTV worked with the Board of Health to produce Coronavirus safety pieces in the early days of the health emergency to help keep the public informed. ORCTV staff live streamed weekly meditation sessions presented by the Council on Aging, giving viewers the opportunity to participate from the comfort of their homes. Throughout the year the station worked with St. Gabriel's Episcopal Church and the First Congregational Church of Marion to bring live services to their congregations. ORCTV worked closely with the Marion Arts Center livestreaming plays, virtual art shows, concerts and their annual Arts in the Park event to the public. The Sippican Historical Society continued its long running Oral History Project throughout the year with staff members working with the Society to film interviews from the homes of each episode's subject. ORCTV also helped the Historical Society broadcast their meetings and lectures remotely throughout the year. The Tri-County Symphonic Band performed several virtual concerts in 2020 including their Annual Holiday show. The Sippican Land Trust worked with ORCTV to promote their new trail locations several times during 2020, creating virtual hiking tours and promotional videos. Town events such as the Annual Memorial Day observances and the dedication of the Elizabeth Taber Statue at the public library were streamed live in lieu of public gatherings. Other organizations that ORCTV worked with in 2020 include the Elizabeth Taber Library, The Marion Museum of Natural History and the Buzzards Bay Action Committee.

The partnership between ORCTV and the Old Rochester School District continued to grow and thrive during 2020 as both students and staff created new means to produce programming for the Tri-Town Education Channel. The ORCTV/ORRHS video production program, led by ORCTV Access Coordinator Codie Patnaude, is now in its fifth year. When the students left school on the afternoon of March 13<sup>th</sup> 2020 the students did not know they would not be in the building until September. The shuttering of the school could have had a devastating effect on the video production program. Instead, the staff and students to their credit changed course immediately and began creating content for their weekly news program, Bulldog Weekly, from

home. The students only missed one weekly episode before they were back on the air. Each week for the remainder of the school year the students produced a 20 to 30 minute program that highlighted the challenges of being thrust into a remote learning situation without warning. The students' creativity was challenged week in and week out and yet each week they rose to the occasion. When school returned in the fall the students followed social distancing protocols and once again found new ways to create their program under trying circumstances. The staff could not be more proud of this group of students for what they have accomplished during this most difficult of years.

ORCTV also live streamed the ORRHS and Old Colony 2020 commencement ceremonies and Old Rochester district elementary school graduation ceremonies. The station worked with local schools to create virtual concerts, award ceremonies, holiday events and school assemblies throughout the year. When winter sports were allowed to take place with either limited or no in house audiences, the Old Rochester Athletic Department asked if ORCTV would be able to live broadcast games for students, friends and families. While we had not been able to do this in the past we accepted the challenge and livestreamed games over our Facebook page and our ETV channels on cable. This included games from as far away as Fall River, New Bedford and Cape Cod.

The station's outreach program continued to work with ORR district elementary schools as well as the Junior High School with our junior reporters program. Each school year the staff of ORCTV has worked with about 300 students and school district staff members in video production training classes and workshops. The Sippican Junior Reporter program remains as the model for the other schools in the district with Sippican School teacher Chelsea Lawrence helping to grow the program each year. The partnership we have developed with the ORR School district continues to serve as a model for other area school districts and their local access stations, who have produced similar programs and created content based on knowledge that ORCTV shared with neighboring access stations.

During 2020 ORCTV cable-casted 8,300 hours of programming on our public channel, over 6,200 hours of programming on our educational channel and 6,700 hours of programming on Marion's government channel. ORCTV is proud to serve this community as your access media center and we look forward to our continued service to the town of Marion for many years.

## 2019-2020 SCHOOL YEAR REPORT

### Introduction

Old Rochester Regional School District and Massachusetts School Superintendency Union #55 serve the towns of Marion, Mattapoisett, and Rochester. The educators and staff in the three communities and four districts continue to work collaboratively to develop and deliver high quality education for our students that prepare them for an ever changing society and workforce. Thank you to our three communities who provide financial stability that allow our educators the resources to offer the latest curricula and programs which help our children to compete and excel in all facets of their education. Our school buildings continue to be invested in and maintained to create a safe and welcoming environment for our students and staff.

As you read this report you will see examples of our students' achievements, staffing and program changes, as well as signs of the structural improvements that have taken place in our buildings to upgrade learning spaces, technology infrastructure and safety.

Of particular historical significance, our school system navigated the onset of a global pandemic that directly impacted the educational programming offered to our students and families. Starting on March 13, 2020 our schools were ordered by the Massachusetts' Governor to halt in-person learning due to a virus known as COVID-19. As our school, town, and state leaders learned more about COVID-19 our educators begun shifting our in-person learning model to a remote one. Initially, our educators started to share educational opportunities and resources with our students and families to access remotely or in their homes. Moreover, our schools focused on continuing to provide special education services, social and emotional supports, and food services to students and families.

Shifting from a completely in-person learning model to a remote one with little to no notice was an extreme challenge for our school community. Quickly our stakeholders mobilized to ensure students and families had access to adequate technology, training opportunities, and educational supports. With that being said, the primary concern for all was health and safety. The ultimate goal became preventing the spread of COVID-19 within our school community and beyond – while continuing to offer educational opportunities. For the remainder of the 2019-2020 school year our school buildings remained closed and in-person learning paused.

After initially offering remote educational opportunities and resources to our students a complete shift to remote learning followed. This meant that our educators and staff members offered both synchronous (live teaching) and asynchronous (learning at your own pace) teaching and learning opportunities with participation expected from all students. Recognizing that students would not be exposed to the typical in-person curriculum, our educators identified the power learning standards students should know in order to progress to the next grade level.

Challenging scenarios can bring the best out of people and that is exactly what happened in our school community. Students and families truly partnered with their schools and helped ensure that teaching and learning continued. Moreover, our educators and staff members demonstrated the true ability to be flexible problem solvers and dedicated educational leaders. Although in-person learning remains the preferable learning model – our school community met the challenge of making learning meaningful and memorable remotely while navigating a health crisis.

## **Strategic Plan**

Vision 2023 was created in the Spring of 2018 by a steering committee with the help of focus groups from all three towns. The steering committee narrowed the scope of the work to three priority areas; social and emotional learning, global awareness, and 21<sup>st</sup> century skill development.

### **THEORY OF ACTION**

#### **IF WE ...**

provide all students with life and career skills, learning and innovation skills, and technology skills, by integrating these skills into a rigorous and relevant curriculum,

#### **AND**

develop and consistently utilize evidence-based approaches and strategies that foster the social and emotional well-being of students to promote their success,

#### **AND**

create a school district environment that broadens our students' leadership skills, understanding and appreciation of multiculturalism, diversity, and global awareness by building relationships to establish a broader worldwide network, inspire all students to think, to learn, and

#### **THEN WE WILL ...** to care.

have provided our Tri-Town students with 21st-century academic skills, strengthened their social and emotional competencies and prepared them to be engaged global citizens.

### **Strategic Plan - Year Two**

During the 2019-2020 school year educators worked to complete the goals identified in the second year of the five-year strategic plan. The Vision 2023 strategic plan overarching goals focus on meeting the needs of all students, community relationships, technology, and organizational structure. This year's professional development centered around our commitment to Vision 2023. The focus was:

- Safety & Security (ALICE & SITUATIONAL SAFETY)
- Embedding Project-Based Learning in Every Subject Area
- Literacy & Math Project-Based Learning
- Social & Emotional Learning for Cultural Proficiency & Global Understanding
- Grade Level Project-Based Learning Professional Development (Vertical Teaming)
- Department Project-Based Learning Professional Development (Vertical Teaming)

- Cultural Proficiency Professional Development
- Social Emotional Learning Professional Development
- Grade Level Curriculum Development
- Department Curriculum Development
- Transition Meetings

Year two goals of Vision 2023 were the focus throughout this year of professional development. We welcomed Trevor Muir a national leader in project-based learning to our school community to lead a full day of professional development for our faculty. Additionally, our school community appreciated professional development opportunities led by Diversity Talks. Diversity Talks is an organization that provides student led professional development on diversity and equity topics. Our schools also continued to focus on cultural proficiency and anti-racism work. Dr. Adolph Brown, a national leader, spoke to our faculty. He inspired and motivated educators to reach all students. Furthermore, we continued to learn from one another. Teacher leaders from our schools used their skill sets and areas of expertise to provide many adult learning opportunities for their colleagues. Much was learned and accomplished which was brought forth to our students in the classroom.

### **School Leadership**

During the 2019-2020 school year, key positions at both Central Office and our schools experienced personnel changes. As a result of Dr. Douglas R. White announcing his intent to retire at the conclusion of the 2019-2020 school year, the Joint School Committee partnered with the Massachusetts Association of School Committees (MASC) to lead a superintendent search effort. As a result, a MASC search consultant led a full superintendent search effort that resulted in the appointment of a new Superintendent of Schools. In the spring of 2020 the Joint School Committee formally appointed, Michael S. Nelson, from Plymouth, Massachusetts as the Superintendent of Schools for the Old Rochester Regional School District and Massachusetts School Superintendency Union #55 as of July 1, 2020. Mr. Nelson had previously served the schools as the Assistant Superintendent of Teaching, Learning, & Student Services and before that the Director of Student Services.

Dr. White officially retired on June 30, 2020 after ten years of serving as the Superintendent of Schools. The school community is thankful for the decade of service that Dr. White provided leading the schools through multiple strategic plans and we wish him many years of happiness in retirement. In the summer of 2020, searches for the schools' next Assistant Superintendent of Teaching & Learning, Assistant Superintendent of Finance & Operations, and Director of Student Services began under the leadership of Mr. Nelson.

Throughout the 2019-2020 school year Dr. Lincoln Lynch, a retired Superintendent of Schools and School Business Manager assisted the school leadership with finance and operations consultation. Dr. Lynch assisted in leading the Business Office after the resignation of Mr. Paul Kitchen the previous school year. The Assistant Principal position at Sippican School also experienced a change in leadership. Mr. Kyle Letendre fulfilled his one-year appointment and returned to the classroom as a 6<sup>th</sup> grade teacher at Old Hammondtown School in Mattapoisett. Mr. Letendre's year of service was appreciated by the Sippican School community. As a result, an Assistant Principal search was conducted that resulted in the hiring of Mr. Sean Persico of Marion, Massachusetts.

It is important to note that the Old Rochester Regional School District and Massachusetts School Superintendency Union #55 utilized a professional learning community (PLC) approach to carry out the responsibilities of the Curriculum, Instruction and Assessment Office this school year. There were four PLC teams that were comprised of school administrators and secondary academic coordinators. The four PLC teams are identified in the table below:

Early Education Grades PK-2	Humanities Grades 3-12	STEM Grades 3-12	Unified Arts
Rose Bowman, Mattapoisett Principal Kris Lincoln, SPED Coordinator Doreen Lopes, Early Childhood Coordinator Michael Nelson, Asst. Superintendent Marla Sirois, Marion Principal	Bob Biehl, ELA Coordinator Erich Carroll, SS Coordinator Kelly Chouinard, ORJHS Asst. Principal Michael Devoll, ORHS Principal Charley West, Rochester Asst. Principal	Silas Coellner, ORJHS Principal Colleen Foster, STE Coordinator Hildi Graser, STE Coordinator Melanie Kellum, Math Coordinator Kyle Letendre, Marion Asst. Principal Derek Medeiros, Rochester Principal Kevin Tavares, Mattapoisett Associate Principal	Steven Bernardo, Language Coordinator Vanessa Harvey, ORHS Asst. Principal Doug White, Superintendent

At the start of this academic school year our PLC teams articulated their commitment to the continued utilization of Atlas. This web-based curriculum management platform allows our educators to write and document curriculum, instruction and assessment with a curriculum design approach that is tailored to our schools’ needs with learning standards alignment. Next, the PLC teams completed an inventory of the curriculum that was already documented within Atlas and a needs assessment of all grades, subjects and disciplines. As a result, the PLC teams completed the following tasks during the school year:

- Documented all course titles in Atlas Prek - 12
- Reviewed and/or inputted all course descriptions in Atlas for all courses Prek - 12
- Reviewed and inputted all unit calendars/pacing guides in Atlas for all courses Prek – 12
- Inventoried, reviewed and documented all common assessments Prek - 12
- Documented in Atlas the content (students will know…) and skills (students will be able to…) Prek - 12

In addition, the Early Education PLC team designed and implemented a standards-based report card for kindergarten students to align with the reporting practices of grades 1 – 8. Throughout the 2019-2020 school year the PLC teams provided professional development (PD) opportunities for all staff in relation to the adopted PD plan. Starting in January, the PLC teams also worked with stakeholders to design a proposed PD plan for the 2020-2021 school year to present to the Joint School Committees. Our Curriculum, Instruction and Assessment PLC teams are excited about the work and the teaching and learning direction of our schools.

After in-person learning was halted in light of the COVID-19 health crisis, the school leadership shifted focus to develop a remote learning model. As a result of these efforts, the schools continued to work towards the strategic plan outcomes and provided stability during an unprecedented school year impacted by a global pandemic.

**School Buildings**

**All Schools**

During the 2019-2020 school year we completed our energy savings conversion to LED lighting, both inside and outside, in 5 of our schools. This initiative has already produced savings both in the kilowatt usage and labor.

The onslaught of the COVID-19 Pandemic in March brought with it the unique challenge of acquiring all the required Personnel Protection Equipment (PPE) as directed by DESE and the CDC. HVAC and air quality inspection, tests and evaluation was conducted by two separate outside contractors to ensure we have the capability to provide a safe educational environment in accordance with prescribed ASHRAE Standards. All our buildings are cleaned and disinfected every school day and then static sanitized in the evening. This ensures that all surfaces, including high use touch surfaces, such as door handles are completely free of germs.

We submitted Capital Plans to the three Towns for Capital Improvements including District Capital needs. We have met with representatives from each Town and presented our needs and justifications. The Towns will prioritize and assess the Capital needs and notify us of the outcome.

All mandated yearly inspections and tests have been completed in all buildings.

#### **Rochester Memorial School**

We reviewed the solar proposal from Power Options and Solect Energy and we have submitted an application for the Commonwealth's SMART program and have locked in the Block 5 savings incentive. Our project is in the review stages by the Commonwealth and Eversource.

Phase three of the technology infrastructure backbone was completed. This final phase will ensure a constant and reliable connection to the internet through various access points throughout the school. This was a crucial requirement for us to meet the high demand on technology and prepare for the possibility of the hybrid/remote learning model for the 2020-2021 school year. Routine maintenance was conducted on all facility machinery and equipment to ensure proper operation and reliability.

#### **Old Rochester Senior/Junior High School**

We upgraded our phones system to an IP over voice system. This upgrade was needed to replace our 21-year-old copper wire analog system. The new system provides more reliability and functionality to our administrators and staff.

Through donations the track infield was extended and re furnished with loam, seed and fertilizer. Irrigation was also installed to ensure proper irrigation of the field. This field can now be used for games as well as practice, relieving all the previous use on the multi-purpose field.

Our Solar Carport project was approved in legislation, which allows the District to enter in a net metering credit lease. We have submitted our application and are awaiting a response back from Eversource and engineers to determine if the ability of the existing grid to handle our solar project and what cost, if necessary, to upgrade the grid.

We have upgraded our current sound and light system in the auditorium. This upgrade will enhance the many student and community functions, such as shows, presentations and productions.

Routine maintenance was conducted on all facility machinery and equipment to ensure proper operation and reliability.

### **Sippican Elementary School**

We have completed Emergency Dispensing Plan (EDS) with Town Emergency Management Team and Town Officials. The plan would allow for emergency dispensing of inoculations and vaccines during a pandemic

We worked hand in hand with the Town to complete an American with Disabilities Act (ADA) survey on our entire facility. This survey will ensure we meet all requirements for personnel with disabilities and we continue to be compliant with current regulations.

Routine maintenance was conducted on all facility machinery and equipment to ensure proper operation and reliability.

### **Center School**

We made several repairs to the shingles on the roof due to storms and heavy winds.

Routine maintenance was conducted on all facility machinery and equipment to ensure proper operation and reliability.

### **Old Hammondtown School**

With the update of the JACE (brain) controller in the Building Management System (BMS) we are able to further improve the capabilities of our HVAC system resulting in utility savings and the ability to have better control off and on site.

Routine maintenance was conducted on all facility machinery and equipment to ensure proper operation and reliability.

## **Student Services and Special Education**

Students who receive special education services in the Tri-Town Area range in age from 3 to 21. Our integrated preschool program called Project GROW provides services for any preschoolers who are eligible for special education. Some preschoolers, who are eligible for special education services, receive therapies on an appointment basis based on individual needs.

Students in elementary schools range from those who may have very mild learning or language disabilities or a developmental delay to students who have very significant disabilities (autism, multiple disabilities, etc.). School-based TEAMS consider the impact of the student's disability on their education in determining the types of services or program the student needs. Some students with complex disabilities affecting all areas of their lives may require services after school or during summer vacation. As students become older, school based TEAMS work with adult agencies to begin the transition process for students who are entitled to support services.

During 2020 and as compared with the Commonwealth of Massachusetts the Marion, Mattapoissett, Rochester and Old Rochester Regional School Districts educated 83.5% of their students who receive special education within a full

inclusion service delivery model, as compared with a state average of approximately 62%. The benefits of education within our neighborhood schools include: higher expectations for students with disabilities; improved instruction (because of the need for teachers to teach to individual children regardless of their achievement levels); and a richer school environment because of the diversity of our classrooms. The average percentage of students with disabilities (SWDs) is 15.8%, which is 2.9% less than the state average of 18.7%. A particular point of pride continues to be how few of our students are educated in schools outside of their communities. Specifically, only .7% of students with disabilities are educated in schools or programs not in the Tri-Town! This data is evidence of the strong commitment to an inclusive school and town(s) environment.

There is variability in the percent of students with disabilities among our school districts – as outlined in the table below:

District	%SWD
Marion	19.0%
Mattapoisett	16.0%
Rochester	19.0%
ORR	13.0%
System-Wide	15.8%
State-Wide	18.7%

Regarding the professional development of staff members within our schools, approximately 28 individuals participated in a Responsive Classroom Elementary Course in 2020. Responsive Classroom is a student-centered, social and emotional learning approach to teaching and discipline. It is comprised of a set of research, and evidence-based practices designed to create safe, joyful, and engaging classroom and school communities for both students and teachers. Furthermore, Responsive Classroom is an evidence-based approach to teaching and discipline that focuses on engaging academics, positive community, effective management, and developmental awareness. Our students are given opportunities to develop their social and emotional competencies related to cooperation, assertiveness, responsibility, and empathy. The schools in the Tri-Town have been committed to the Responsive Classroom approach for approximately two decades and steps are continuously taken to improve our implementation practices. At the close of 2020, nearly 100% of our elementary and middle school professional staff members are fully trained and/or have received additional Responsive Classroom training. Moreover, the Office of Student Services offered additional trainings in the areas of Individual Education Program (IEP) development, adult agency supports for students with disabilities (MRC), confidentiality, student records, and crisis prevention and intervention (CPI).

At the Old Rochester Regional High School, the severe disabilities learning support centers continue to grow and provide high level services to both high school aged students with disabilities and for individuals requiring transitional services and programming. The Office of Student Services continued to collaborate with Southeast Center for Independent Living in 2020 and offered a Learner's Permit Course for students with disabilities. For seven weeks, eligible students participated in an in-person course that prepared students to take the learner's permit test either at the Registry of Motor of Vehicles or with a staff member in-person to accommodate their learning differences.

The high school athletics program continued with their Unified Sports/Special Olympics affiliation. Special Olympics is dedicated to promoting social inclusion through shared sports training and competition experiences. Unified Sports joins people with and without intellectual disabilities on the same team. It was inspired by a simple principle: training together and playing together is a quick path to friendship and understanding. The Bulldogs have embraced this philosophy and expanded their participation to basketball during this year. Unfortunately, our 2020 Unified Track season was canceled due to the pandemic but we are preparing for an exciting return in 2021.

Our youngest learners continued to receive high level preschool services in an integrated classroom model that reflects our schools’ philosophy regarding inclusion and best practices. The Early Education Coordinator worked with both school personnel and community partners to offer a virtual playgroup for our youngest learners.

In 2020, the Office of Student Services also collected and participated in a Circuit Breaker Audit. This review process emphasizes procedures for tracking out of district billing and payments. Particularly, the DESE reviewed our procedures and documentation.

During the spring of our 2020 school year our staff, students, and families faced challenges never imaginable in the educational world. Our special educators, service providers, para-professionals and staff worked diligently with our families on providing services during the state-wide shutdown.

**Finances**

Federal and state grants continue to offset staffing in all four school districts, as well as provide staff development for targeted student needs including social/emotional learning, language-based learning disabilities, and students with significant and complex needs. Grants also offset a percentage of preschool programming. Finally, the continued investment in providing special education services within the neighborhood schools enriches the quality of teaching available to all students, improves the school culture and ultimately results in students with disabilities and their families maintaining a higher level of independence.

**The School Budgets**

The table below displays the trends in the budgets of the Tri-Town district in the last three years.

The per pupil cost for education in the schools of the Old Rochester Regional and Massachusetts School Superintendency Union #55 is compared to each other as well as to the Massachusetts state average:

	<b><u>FY'17</u></b>	<b><u>FY'18</u></b>	<b><u>FY'19</u></b>
Marion	\$15,788	\$16,298	\$16,112
Mattapoisett	\$19,427	\$19,746	\$20,549
Rochester	\$15,269	\$14,633	\$14,580
Old Rochester	\$15,316	\$15,405	\$16,508
State Average	\$15,911	\$16,506	\$17,150

The source of support for public education programs in the Old Rochester Regional School District/Massachusetts Superintendency Union #55 includes funding sources described in the tables below:

**Local Tax Assessments: Local School Budgets: (Grades K-6 Elementary School Program)**

	<b><u>FY'18</u></b>	<b><u>FY'19</u></b>	<b><u>FY'20</u></b>
Marion	\$5,929,108	\$6,056,909	\$6,165,701
Mattapoissett	\$6,917,439	\$6,994,224	\$7,185,583
Rochester	\$6,076,313	\$6,256,108	\$6,424,585

**Old Rochester Regional School District (Grades 7-12 Program)**

	<b><u>FY'18</u></b>		<b><u>FY'19</u></b>		<b><u>FY'20</u></b>	
	<i>Operating</i>	<i>Capital</i>	<i>Operating</i>	<i>Capital</i>	<i>Operating</i>	<i>Capital</i>
Marion's share	\$4,198,079	\$233,619	\$4,336,188	\$244,953	\$4,540,902	\$221,749
Mattapoissett's share	\$5,098,910	\$321,656	\$5,462,462	\$310,793	\$5,706,582	\$305,713
Rochester's share	\$4,487,989	\$292,961	\$4,493,007	\$281,671	\$4,566,742	\$276,910

**State Aid (Towns (K-6) & ORR District (7-12))**

	<b><u>FY'18</u></b>	<b><u>FY'19</u></b>	<b><u>FY'20</u></b>
Marion	\$ 833,282	\$ 846,844	\$ 860,344
Mattapoissett	\$ 812,995	\$ 826,405	\$ 839,485
Rochester	\$1,802,732	\$1,855,232	\$2,057,549
Old Rochester	\$2,900,926	\$3,010,154	\$3,043,394

	<b><u>FY'18</u></b>	<b><u>FY'19</u></b>	<b><u>FY'20</u></b>
Federal and State Entitlements:	\$823,951	\$969,299	\$896,276
Competitive State Grants	\$0	\$33,810	\$ 76,977
Private Grants			\$ 3,414

**Enrollment**

The October 1<sup>st</sup> enrollment totals in the Old Rochester Regional/Massachusetts School Superintendency Union #55 Districts are showing a fluctuation from year to year. It is important to note that the enrollment numbers reported in 2020 were reported during the COVID-19 pandemic and there were 92 additional K-12 students who were being homeschooled. As a reference in the previous year we had 24 K-12 students reported as homeschooled.

	<b><u>October 1 Figures</u></b>	
	<b><u>2018</u></b>	<b><u>2019</u></b>
Sippican School	446	433
Center School	246	244
Old Hammondtown	190	190
Rochester Memorial	509	504
ORR Junior High School	413	415
ORR Senior High School	682	662
		636

Although a high percentage of the elementary school students K-6 are enrolled in the Tri-Town Public Schools there is some movement to independent and parochial schools from grade seven and a more significant movement to independent, parochial, and vocational schools, after the eighth grade. The following chart captures trends in student transfers. The largest transfer trend is seen from Grade 8 to Grade 9 where some of our students opt to go into Vocational High Schools, such as Upper Cape Cod Technical High School, Old Colony Regional High School and Bristol County Agricultural High School.

	<u>2018</u>	<u>2019</u>	<u>2020</u>
Grade 6	221	203	177
Grade 7	204	213	192
Grade 8	209	202	207
Grade 9	179	156	136
Grade 12	169	162	166
Graduating Class *	177	185	

\* Graduating class figures are as of June; other figures are as of October 1, 2020.

Luke Burke	Wareham
Jacob DeBastos	New Bedford
Johan DePina	Wareham
Patrick Finnegan	New Bedford
Kiara Goldie	Wareham
Martina Montorio	Wareham
Megan Nolan	Wareham
Artermis Sivvianakis	Wareham

### **Union Agreements**

During the 2019-2020 school year two agreements (one year) were negotiated and settled. The Marion Teachers Association and the Rochester Memorial School Support Personnel Association with the understanding that negotiations would begin again in 2021. One year agreements were agreed upon in light of the uncertain programmatic and fiscal school environment impacted by COVID-19. In the 2021 school year negotiations will also commence with the Marion Support Staff Association, Rochester Memorial School Teacher Association, and the Mattapoisett Teacher Association.

### **Academic Performance**

The 2019/2020 academic year began as any other year with plans to prepare students for the Spring of 2020 MCAS/Next Generation Testing. Educators prepared students with reading and literacy, math, science and social studies grade-level benchmark assessments.

District educator professional development for the 2019/2020 academic year focused on one full day and one half day devoted to 21st Century Innovative Curriculum for the 4 C's: critical thinking, collaboration, creativity and communication. The topics included embedding project-based learning in every subject, literacy and math project-based learning and vertical teaming. Teachers embedded these important skills into classroom instruction further helping students learn mastery testing skills for the upcoming standardized assessments in the Spring.

As we all know, 2020 had other plans for us. On March 13, 2020 the Old Rochester Regional School District Massachusetts School Superintendency Union #55, like most school districts, closed its physical buildings due to the start of the COVID-19 pandemic. Student learning continued remotely. The Next Generation MCAS and SAT’s were postponed until the 2020/2021 academic year. During the transition to remote learning, our teachers, administrators, and stakeholders reinvented how instruction would be delivered for the remainder of the academic year. The learning model was improved upon and carried forward into the 2020/2021 school year.

**Advanced Placement Coursework**

Amidst the COVID-19 Pandemic, students at the Old Rochester Regional High School successfully completed Advanced Placement courses and sat for AP examinations which were offered online. One hundred and seventy-seven students took advantage of the variety of the Advanced Placement courses offered in the 2019-2020 academic year. These 177 students took a total of 339 Advanced Placement exams, meaning a number of students took multiple AP courses at the same time. A number of students chose to take advantage of college level courses while in high school. Advanced Placement exams are developed by the College Board. These rigorous examinations are scored on a scale of 1 through 5. When a student earns a 3, 4, or 5, several higher education institutions offer college credits. Students can then enter college with credits already earned towards their degree. We are very proud of the many students who persevered during the uncertainty of the Pandemic and took multiple AP courses and exams.

The Advanced Placement program has several scholar awards for students who have demonstrated outstanding academic performance on the AP exams. The AP scholar nomination is granted to students who receive scores of 3 or higher on 3 or more AP exams. The Old Rochester Regional High School had 54 outstanding students who earned this honor of distinction. We are delighted with the robust participation and success given the way the 19/20 academic year unfolded. Below is a table of the AP Awards received.

ORR Students	AP Award	AP Criteria
19 Students	AP Scholar	Granted to students who receives scores of 3 or higher on three or more AP Exams
12 Students	AP Scholar with Honor	Granted to students who receive an average score of at least 3.25 on all AP Exams taken, <b>and</b> scores of 3 or higher on four or more of these exams
21 Students	AP Scholar with Distinction	Granted to students who receive an average score of at least 3.5 on all AP exams taken, <b>and</b> scores of 3 or higher on five or more of these exams
2 Students	National AP Scholar	Granted to students in the United States who receive an average score of at least 4 on all AP Exams taken, <b>and</b> scores of 4 or higher on eight or more of these exams.

## College and University Admission

The graduating class of 2020 attained admissions to a variety of impressive public and private institutions of higher learning. The largest portion of Old Rochester Regional High School's Class of 2020 students, 12 students, chose University of Massachusetts, Dartmouth, as their first choice. A number of students chose the economically advantageous opportunities within close proximity to the Tri-Town: 14 chose Bristol Community College, 3 chose Cape Cod Community College, 8 chose Bridgewater State University, 8 chose University of Massachusetts-Amherst. Six chose University of Massachusetts-Boston, 4 chose Massachusetts Maritime Academy, 6 chose the University of New Hampshire, and 2 chose Emmanuel, respectively. Other students chose to enroll in state institutions of higher learning in other states or in private colleges. Below is a listing of the institutions:

MASS Art, MA Maritime Academy, Massasoit Community College, Merrimack College, Monmouth University, Montserrat College of Art, New England College, New England Institute of Technology, New York University, Niagara University, Nichols College, Northeastern University, Northern Vermont University, Northwestern University, Old Dominion University, Penn State University, Plymouth State University, Pratt Institute, Providence College, Quincy Community College, Quinnipiac University, Regis College, Rensselaer Polytechnic Institute, Rhode Island College, Rivier University, Roanoke College, Rochester Institute of Technology, Roger Williams University, Sacred Heart University, Saint Joseph's University, Saint Louis University, Saint Michael's College, Salem State University, Salve Regina University, San Diego State University, San Francisco State University, San Jose State University, Sarah Lawrence College, Seton Hall University, Simmons University, Skidmore University, Southern Conn State University, Southern New Hampshire University, Springfield College, St. Lawrence University, Stevens Institute of Technology, Stonehill College, Suffolk University, SUNY Albany, Syracuse University, Tallahassee Community College, The College of Saint Rose, Tufts University, UMASS Amherst, UMASS Boston, UMASS Dartmouth, UMASS Lowell, Union College, University of Alabama, University of Bridgeport, University of Central Florida, University of Colorado Boulder, University of Connecticut, University of Hartford, University of Kentucky, University of Louisville, University of Maine at Farmington, University of Maine-Orono, University of Mississippi, University of New England, University of New Hampshire, University of New Haven, University of North Carolina, University of Northwestern Ohio, University Of Pittsburg, University of Rhode Island, University of South Carolina, University of South Florida, University of Southern Maine, University of Tampa, University of Tennessee, University of Texas Austin, University of Utah, University of Vermont, US Coast Guard Academy, Utah State University, Wentworth Institute of Technology, West Virginia University, Western New England University, Westfield State University, Wheaton College, Williams College, Worcester Polytechnic Institute, Worcester State University, York College of Pennsylvania

The graduating Class of 2020 also had students who chose to serve in the Army and Air Force. We are extremely proud of those who chose to serve our country and thank them for their service

## Conclusion

In summary, our schools continued to make progress with the Vision 2023 Strategic Plan and meet outcomes articulated within the second year of the plan. The focus continued on 21<sup>st</sup> Century Learning by developing project-based learning understanding and implementation. Furthermore, our educators continued to focus on the importance of learning opportunities including creativity, collaboration, communication, and critical thinking components. We continued to recognize and value social emotional learning in our schools by endorsing the Responsive Classroom approach, teaching explicit social emotional skills, and ensuring safety in our classrooms and schools. Lastly, our

school community embraced the ideology of global citizenship by creating opportunities for both students and educators to acknowledge not only the classroom environment, but beyond.

The COVID-19 pandemic continues to impact our school community. Students stopped attending school in-person after March 13, 2020 and what teaching and learning will look like in the future is yet to be determined. Although we are proud of how our students, families, and staff members have navigated the COVID-19 pandemic – planning for the future is of the utmost importance.

Reopening School Planning Teams comprised of school community stakeholders were established to prepare for the 2020-2021 school year. The goal was to utilize agency guidance, stakeholder feedback, and professional expertise to design a Back to School 2020-2021 Plan that includes a remote, hybrid, and in-person learning model. These teams worked on behalf of our schools tirelessly to build this plan for school committee approval.

The mission of our schools remains simple, straightforward, and strong: we aim to inspire all students to think, to learn, and to care. Moving forward, our schools with the support of the citizens of Marion, Mattapoisett, and Rochester will continue to achieve success by developing students that not only are ready to contribute to their local community – but communities beyond the Tri-Town.

### **School Committee**

During the 2019-2020 school year we had six (6) School Committee members conclude their service, we extend our sincere gratitude for their willingness to offer their time and commitment to our schools and our students.

The following school committee members completed terms in 2020:

- Stefan Gabriel, ORR School Committee, Mattapoisett
- Ronald Gerhart, Marion School Committee
- Paul Goulet, ORR School Committee, Marion
- Kate Houdelette, Marion School Committee
- Danni Kleiman, Rochester School Committee
- Charles Colburn Rider, Mattapoisett School Committee

We also welcomed six new members, we thank them for joining our school community. The stakes involved in school committee decision-making are quite high and we look forward to working collaboratively with them throughout their term.

The following school committee members began terms in 2020:

- Mary Beauregard, Marion School Committee
- Jonathan Dickerson, Marion School Committee
- Katherine Duggan, Rochester School Committee
- Frances Kearns, ORR School Committee, Mattapoisett
- Carly Lavin, Mattapoisett School Committee
- Margaret McSweeney, ORR School Committee, Marion

The following school committee members were re-elected in 2020:

- Anne Fernandes, Rochester School Committee
- Joseph Pires, ORR School Committee, Rochester

**Annual Administrator's Report  
2019-2020  
Sippican School  
Marion, Massachusetts**

The school year began with an enrollment of 433 students in grades PreK through 6. I began my principalship (Ms. Marla Sirois) along with Mr. Kyle Letendre as assistant principal. It was a year filled with change. Students, staff, and families collaborated to ensure that this unusual year (due to the COVID 19 pandemic) would provide the best education for the students at Sippican School.

During the 2019-2020 school year, students demonstrated progress in all academic areas according to school wide assessments. However, the state MCAS tests were cancelled this year due to COVID 19.

**Staffing**

The 2019-2020 school year brought change to Sippican's staff. Both of our office staff members were this year. We welcomed Ms. Lisa Daniels as special education secretary and Ms. Donna Dunn as the interim principal's secretary. Project Grow welcomed a new teacher, Sarah Goerges. Ms. Goerges has been a teacher and administrator at Sippican for over a decade. She has been a welcome addition to the Project Grow team. We were also fortunate to bring on a new special education teacher, Ms. Brenna Kelly. Ms. Kelly worked primarily in grade 3. There were a few notable retirements as well. Long time paraprofessional Karen Santos retired in December. At the end of the year, long time school nurse Maureen Lamoureux and Reading Recovery teacher Kelly Kelleher began much deserved retirements. We are grateful to all of them for their decades of service to the children and families of Marion. We thank them all for their service.

**Curriculum and Staff Development**

Professional development is essential to ensure that our staff are prepared to provide the best educational experiences for our students. The focus of the 2019-2020 professional development was focused on the goals of the District and School Improvement plans. To that end, the district provided workshops on Project Based Learning. We welcomed guest speaker Trevor Muir who "Believe(s) educators hold the key to unlocking[student] potential by building relationships and crafting learning experiences that are engaging and transformative." Mr. Muir provided a keynote address to the ORR staff followed by an afternoon of workshops focused on developing project based learning opportunities for students. The district also held professional development this year dedicated to cultural proficiency. As a staff we were enlightened by the words of Dr. Adolph Brown. Dr. Brown inspires teachers to understand implicit and unconscious bias. He provided the Orr school district with anti-bias training. Dr. Brown supported our understanding that structural disparities need to be dismantled in order to develop solutions to issues related to social inequities. The dedication of our staff to being lifelong learners is essential to maintaining the highest standards for all of our students.

**Highlights Across the School**

Students at Sippican are focused on the learning that takes place inside and outside of their classrooms. These were presented in the form of projects, field trips, in-school presentations and clubs. Among these opportunities were visits with and to the New

Bedford Symphony across the grade levels, the Marion Fire Department's fire safety presentation, Zeiterion Theater experiences for most grade levels and many field trips that directly linked with curriculum. Each offering is a demonstration of the investment on the part of staff and community to extend learning beyond that which takes place in the classroom.

Sippican continued its partnership with ORRHS in a Big Brother/Big Sister Program. High school students volunteered their time weekly to travel to Sippican to work with their Little Brothers and Sisters. This program provided mentoring experiences for young and old and was a collaboration that we are grateful to have.

Anchor offered programming to families each month. Under the direction of Lisa Horan and many other staff members. Families and community members were welcomed to a spaghetti supper/BINGO night and a Family Game Night cosponsored by the YMCA.

The Sippican School band and Concert Choir performed wonderfully for the 2019 Holiday Stroll. Our school community also enjoyed winter concerts for grades 4, 5, and 6 which featured the band, jazz bands, and the concert choir. We were also grateful that our Concert Choir was able to represent us at the district's FORM concert. With the onset of Covid19 Band students at Sippican School quickly pivoted to online lessons, discovering that there were some things they could not do (playing together in groups) but that they could make huge strides in building their individual skills. It all came together for a 'virtual' Memorial Day celebration, even though we couldn't march. With great determination, 80% of the 4th, 5th & 6th grade students are continuing to practice and participate in the school program with hopes of 'normalcy'.

### **Community Connections**

Sippican is blessed to have the Volunteers at Sippican Elementary (V.A.S.E.) members who tirelessly supported the Sippican experience by promoting the arts. They graciously coordinated trips for grade levels to visit the Zeiterion Theater. Each grade level was able to bring varying experiences into the school that added to the curriculum through their financial support. Examples of these programs would be Toe Jam Puppet Band, Pilgrim presentation, Energized Guyz, and the Museum of Science visit. V.A.S.E. also provided enrichment opportunities through their ACE program. We are appreciative of their dedication to the Sippican School community.

Family and community members are regularly invited to see student learning and talent outside of the school day. Here are a few of the highlights from 2018-2019:

- Sippican School band marching in the Christmas Stroll
- Band and Chorus evening performances
- Drama Club's performance of What Happened After Once Upon a Time
- Virtual Vocabulary day
- Schoolwide Reading Challenges
- Global Hour of Code
- Maker Mondays
- Rubik's Cube Club
- Reading is Fundamental book distribution
- Sippican's Got Talent, virtual talent show

## **Conclusion**

The 2019-2020 school year was quite simply, an unusual year. The COVID 19 pandemic changed the way our school year looked from March through June. However, as a school community we supported each other and persevered. Although many of our spring events looked different, we worked hard to preserve as many events and traditions as possible. We are thankful for the community support that we have all felt. The dedication of our staff and the support of the community ensured a successful school year for our students in these truly unprecedented times. We look forward to appreciating all that there is to look forward to in our school community post COVID. *To continue to follow our activities on a continual basis please follow us on our webpage that includes a link to our Facebook page.*

Respectfully submitted,

Marla Sirois, Principal

***Principal's Annual Report***  
***Old Rochester Regional Junior High School***  
***FOR: FY2019/2020***  
***Silas Coellner, Principal***

The Junior High experienced several personnel changes in the past year.

**The following new staff were added to the Junior High:**

Silas Coellner - Principal  
Kelly Chouinard – Assistant Principal  
Tom Cooney – Title 1 Math  
Sarah Lloyd – Social Studies  
Marie Regonini – Special Ed Teacher – Grade 8

**The following staff retired/resigned from the Jr. High School:**

Margaret Benson – Family & Consumer Science Teacher (retired)  
Noreen Erklauer – Reading Teacher (retired)

**The following staff members were reassigned:**

Nate Orie moved from Gr. 8 Social Studies – Grade 7 ELA

**Curriculum and Instruction:**

- Analyzed SEL and Remote Learning Panorama Survey data to inform instruction.
- Professional practice goals established around 21<sup>st</sup> Century Learning Skills and Project Based Learning.
- Peer observations focused on creativity, collaboration, critical thinking and communication
- 8th grade social studies teachers continued to build and refine the new United States and Massachusetts Government and Civic Life curriculum aligned with the 2018 History & Social Studies Curriculum Frameworks.
- Continued implementation of Responsive Classroom with a focus on “engaging academics” domain.
- Implemented positive behavior themes in weekly advisory meetings.
- Grant supported “raising trout” project-based learning experience was conducted in 8<sup>th</sup> grade science.
- Documented every junior high course in Atlas Rubicon. Baseline documentation included; course name, course description, unit calendar, content, and skills.
- Professional Learning Community (PLC) study of implicit bias, white fragility, school talk, and white privilege.

**Afterschool Activities:**

Old Rochester Regional Junior High School offers many intramural activities. During the 2019-2020 school year, intramural activities included Girls Field Hockey, Dodgeball, Fitness and Volleyball. The Boys/Girls Cross Country was offered on an interscholastic basis and Grade 8 Students were eligible to participate on the high school swim team. Due to COVID-19, we were not able to offer the Boys/Girls Track (interscholastic) program or additional intramural after school activities.

Additionally, many students participated in other after school activities including Student Council (continued through June, 2020 – virtually), Jazz Band (continued through June, 2020 – virtually),

GSA Club (continued through June, 2020, virtually), Engineering Club, Ski Club (continued through June, 2020, virtually), Art Club, Geek Club, Minecraft, Ping Pong, Yoga, Chess Club and the drama production of Romeo & Winifred was not able to be presented although the Drama Club students practiced diligently from January, 2019 through March 12.

#### **Community Service:**

During 2019/2020 our students were involved in the following projects:

- The 29<sup>th</sup> Annual Thanksgiving Banquet for the tri-town senior citizens was held – over 90 eighth-graders, 1/3 of the faculty staff and ½ of the cafeteria workers volunteered their time for this annual event. Over 250 Senior Citizens from the Tri-town area were served at the banquet and 95 shut-in meals were delivered to senior citizens who were not able to attend. With the assistance of the Jr. Ambassadors, Ms. Julie Taylor, community members and monetary and door prize donations from local area businesses, this event was once again a great success!
- Students collected food items for 15 turkey dinner food baskets, including the turkey, that were given to those families in need.
- Three students, Hannah Whalley of Mattapoisett, Ella Caesar of Marion and Cattarinha Nunes of Rochester, represented the Tri-towns at Project 351 in January. They met Governor Baker and participated in community service in Boston and held a Child Poverty Clothing Drive at the ORR Jr. High School.
- Our Grade 8 Green Team students volunteered their time during a field trip at Gifts to Give in New Bedford.
- During the month of November, and in support of Prostate Cancer Awareness Month, the School Council held a “loose change” donation to the staff member with the best beard (Mr. Coellner’s loose change jar was the winner) – all of the proceeds were donated to Prostate Cancer Research.

**Survival and S.C.O.P.E.** did not take place

#### **Grade 7 Orientation/Opening Day:**

202 of our 212 Grade 7 students attended the 4<sup>th</sup> annual orientation. Mrs. Carla Cafarella and Mrs. Carol Herrmann volunteered over the summer to organize this event; 20 teachers and 16 eighth graders volunteered for this day.

#### **School Council:**

The Old Rochester Regional Junior High School’s School Council met once a month from September 2019 through March, 2020. The School Council reviewed the FY 19-20 budget and received updates on the budget process as well as worked on the two-year School Improvement Plan for 20-21 and 21-22 school years.

#### **Grant Recipients:**

Sarah Toltin – Grade 8 Science Teacher – “Cape Cod Five Cent Savings Bank Grant” – Trout Project  
Carla Cafarella, Spanish Teacher – “Cape Cod Five Cent Savings Bank Grant” – Purchased Spanish Books

**Staff Accomplishment(s):**

Nichole Charbonneau, Grade 8 English Teacher (Orange Team), was selected to serve on the state level Bias & Sensitivity Assessment Development Committee for the Massachusetts Comprehensive Assessment System (MCAS)

**Old Rochester Regional Junior High to Senior High Transition:**

In September, 2019, Gr. 8 Guidance Counselor, Julie Taylor, visited each of the Grade 8 social studies classes regarding Career Exploration and High School Planning.

**Vocational School Visits:**

On November 1, 2020, students in Grade 8 had the opportunity to visit Old Colony Vocational School. (Mattapoisett and Rochester Students) and Upper Cape Vocational School (Marion Students). Transportation was provided by the vocational schools.

On November 26, 2020, Grade 8 Students participated in a High School Application Process assembly; and, high school tours took place during the week of November 25.

**Grade 6 to 7 Student Transition:**

On May 13, 2020, a Q&A Parent Meeting was held virtually.

As mentioned, an orientation half-day was held at the end of August, 2019 to familiarize incoming Grade 7 students with the school prior to the first day.

**Initiatives:**

- Maintained our summer reading program where students in grades 7 & 8 were allowed to choose a minimum of one book from a selection of fiction and non-fiction titles. A book discussion was held on their selected title in September.
- Inaugural Booster-thon Fundraiser (in place of Magazine Fundraiser) raised over \$12,000.00 (Magazine Fundraiser earned \$2,690.00 in profits for the Jr. High School the previous year). Money was used to defray field trip costs, for student celebrations and to purchase equipment.
- With the Mattapoisett Police and School Resource Officer, Matt McGraw, we trained our staff and students in the A.L.I.C.E. program (enhanced lockdown for school intruder emergencies).
- Created ORRJHS Student Junior Ambassador Program.
- The Healthy Tri-Town Coalition met all year. This committee was made up of administrators, teachers, parents, and community members.
- 1:1 Chromebook initiative continued.
- Ms. Sam Enos led the Annual Scholastic Book Fair during the month of December.
- Continued late buses 3 days a week, which dropped off students at their local town libraries.
- Mandatory substance abuse screening "SBIRT" took place for our Grade 7 students.
- Several teachers piloted Standards Based Grading.
- School-Wide participation in World Read Aloud Day.
- Conducted the "Hour of Code".
- Conducted the National Geography Bee and Spelling Bee.

- Conducted Panorama SEL (Social Emotional Learning) Survey for students and staff.
- Conducted Remote Learning Panorama Survey for student, staff and family members – June, 2020.
- Implemented in person administration/parent/guardian meetings for students at risk for being chronically absent.

#### **Student Assemblies:**

- In October, 2019 - Speaker, Aaron Polansky focused on “being kind and treating all people with respect”.
- In February and March, 2020 – Monthly Positive Behavior Assemblies were held - presented by Mr. Coellner.
- March, 2020 – Wellness Assembly by Linda Dutil
- June, 2022 – by Zoom – Diversity Talks with Nayelie

#### **Music Accomplishments:**

The following music students auditioned for and were accepted into the Southeast District Music Festival.

Instrumental: Orchestra – Luke DeVoe; Band - Jacob Hadley, Corinne Hibbert, Fiona Hoben and Allison Winters

Choral: Chloe Bean, Eloise Casi, Zoe Pateakos and Ava Sepulveda

Respectfully Submitted,

---

Silas D. Coellner, Principal

Principal's Annual Report  
Old Rochester Regional High School  
2020

Michael Devoll – Principal  
Vanessa Harvey– Assistant Principal

### **Our Towns**

Our school serves three southeastern Massachusetts towns: Mattapoisett; Marion; and, Rochester. All three towns have maintained their individual charm through careful and thoughtful community planning. Marion and Mattapoisett are quaint, close-knit seaside communities. Rochester has a more rural landscape surrounded by scenic farms, cranberry bogs, pine forests and fresh water ponds. Residents are proud of their school systems and have been very supportive in passing legislation to insure its continued success.

### **Our School**

The 2019-2020 school year featured a student body made up of 741 students, including 84 students attending Old Rochester Regional High School through the School Choice Program. Our student body resides in the communities of the Tri-Town: Marion, Mattapoisett, and Rochester. Through the School Choice Program the school was able to welcome residents of the following communities to our school: Acushnet, Fairhaven, Lakeville, Middleboro, New Bedford, and Wareham. In 2020, ORRHS graduated a class of 175 seniors, which represented a graduation rate of 100%. ORRHS offers a comprehensive curriculum with a wide selection of Honors and Advanced Placement courses. During the 2019-2020 school year, 177 ORRHS students took 339 Advanced Placement tests with 79% of students receiving a qualifying score of 3 or better. In 2020, approximately 95% of ORR graduates continued their education at two or four-year colleges.

### **Our Faculty**

Of the 61 faculty members at ORRHS, 78% have their Masters degree and 3% have their Doctoral degree. The school has a 14.5 to 1 student to teacher ratio.

Principal of Old Rochester Regional High School in Mattapoisett, Massachusetts, Michael Devoll was pleased to report that the New England Association of Schools and Colleges, voted for continued accreditation for Old Rochester Regional High School at their April 2019 meeting. The New England Association of Schools and Colleges, founded in 1885, is the oldest accrediting agency in the country and is recognized by the U.S. Department of Education as a reliable agency to award accreditation to New England Schools. The Association is a voluntary accrediting agency of more than 2000 public and independent schools, colleges and universities, and vocational, technical, and career institutions. Of these, approximately 630 high schools, middle/high schools and PreK-12 schools have been accredited through the Association's Commission on Public Schools.

### **Unified Basketball**

The 2019-2020 school year introduced a new sport to Old Rochester: Unified Basketball. The school community rallied around this new sports team that integrates student athletes with and without disabilities. The first kick-off game of the year included a huge outpouring of support from the students and staff at ORR. In fact, everyone lined the halls and cheered the athletes and partners on as they headed off to their first game at Middleboro. Each and every game that the ORR Unified Basketball team played was met with a large and encouraging audience. The experience for the student partners and athletes was nothing short of awesome. Watching the teamwork together, learn, and build bonds was one of the most positive and memorable experiences of the year.

### **Mock Trial Club**

The Mock Trial club participated in a multi-day tournament at Falmouth District Courthouse in January and February while competing in turn as both the prosecution and defense in a simulated civil case involving cyber bullying and free speech in schools. Juniors Daphne Poirier and Maya Blouin stepped in to become student leaders of the club, replacing a number of outgoing seniors from the 2018-2019 season.

### **Debate Team**

The Old Rochester Regional High School Debate Team had a successful year in 2019-20 within the Eastern Massachusetts Debate League (EMDL). This season the debaters argued the following resolution, Resolved: The United States federal government should substantially reduce Direct Commercial Sales and/or Foreign Military Sales of arms from the United States. Strong debate performances were made by Emma Vivino, Eddie Gonet, Bess Pierre, Payton Lord, Mackenzie Wilson, Sophia Martins, Katelyn Luong, and Serena O'Connell. Graduating seniors included: Elise Mello, Emily Wilson, Byanca Silva and Emily Kirkham. In 2020-21 the Debate Team is arguing the following resolution: Resolved: The United States federal government should enact substantial criminal justice reform in the United States in one or more of the following: forensic science, policing, sentencing.

### **Southcoast G.R.I.T.**

Southcoast G.R.I.T. (Growth while Running and Inspiring Together) High School Marathon Club has been "running" for five years. The program included two road races: Mattapoisett 10 mile & Veterans 5K Race and Frosty Road Runner Race 10.5mile/5K in Rochester. In each race there were four students plus mentors who participated. The 2020 season concluded in March with running a total distance of 14 miles. Unfortunately the students and mentors were not able to participate in the New Bedford Half Marathon or the Providence Marathon/Half Marathon/5K in May. Students and mentors participated in the first virtual 5K race: ORR for Fallen Patriots, which was sponsored by the sophomore class. G.R.I.T is made up of volunteers and mentors from the school and the greater community. The program challenges students to reach their full potential, physically, socially, emotionally, and academically, through a mentor-supported marathon-training program. G.R.I.T mentors run alongside youth and help them train for and complete all the races by providing companionship, motivation, and support. This program is entirely funded and run through community support, fundraising, and donations. Three members

of the graduating class of 2020 had been participants of the Southcoast G.R.I.T/Dreamfar program. One senior had run a marathon and the other two had run a distance of a half marathon. Southcoast G.R.I.T has not started as of yet for 2021.

### **American Field Service**

The American Field Service is dedicated to creating understanding and friendship between cultures and people across our great country and abroad. A.F.S. raise money to participate in short-term domestic school exchanges with other AFS schools across the country. The group also support and welcome any foreign exchange students at ORRHS. AFS is open to all students who enjoy travel and meeting new people. In the fall of 2019, ORR welcomed the following students from abroad:

Emmanuelle Bailly	Belgium
Manuel Delgado	Portugal
Athena Ip	Hong Kong
Martina Montonio	Italy

The only traveling we did during the school year was to New York City to tour the United Nations. Unfortunately, Covid 19 cut our year short and our exchange students went home in March. A.F.S. was unable to travel to Goodland, Kansas for our annual school exchange. Long-time advisor, Kim Corazzini retired at the end of the school year and was replaced by Mike Nailor.

### **Class of 2021**

In the 2019-2020 school year, the Class of 2021 made an active effort to continue fundraising in anticipation of future senior events. In fall of 2019, the class held a dine-in night at Nick's Pizza and competed in the annual Homecoming Skit competition. The class chose a theme of "Area 51" and earned second place. Furthermore, in the winter months, the class student council held two bake sales at Tabor Academy's public skating and raised money for the Neediest Families Fund by caroling in the Marion Village. The class also hosted Photos with Santa event in December, which was both a fundraiser and an opportunity to engage with the local community. At the beginning of 2020, the class also held a glow-in-the-dark yoga event (Glowga) to continue fundraising efforts. Additionally, just before the start of the pandemic, the class launched a coupon book fundraiser, which was eventually completed in fall of 2020. Unfortunately, as a result of COVID-19, the class was unable to hold a Junior Semi, which typically is the cornerstone of junior class fundraising efforts. Despite this setback, however, the Class of 2021 has remained resilient and sought out alternative fundraising opportunities for senior year.

### **Paw Prints**

Paw Prints, the student newspaper, was able to publish three editions of the paper prior to COVID closure, but didn't let the pandemic shut the publication down. The journalism staff continued to meet & work remotely and even published a deep-dive report on our district's efforts to confront issues of social justice at a sensitive time for both our school community and the nation as a whole. Paw Prints longtime editor was able to pass the reins on to a pair of new editors.

### **Sci-fi Club**

This year's Sci-fi Club brought in several new freshman members, and took a special interest in strategic gaming. We spent most of our meetings introducing an assortment of board and card games. We also spent some time learning about different role-playing games and were able to complete one game night prior to COVID-closure.

### **National Honor Society**

During the 2019-2020 school year, the National Honor Society was busy serving their peers, school, and community through many initiatives and activities. In the fall of 2019, our members competed in the South Coast Honor Bowl. Students continued many of our established outreach programs, such as a peer tutoring lab and mental health initiatives here at the school. In order to make students aware of the growing threats to the environment, members hosted educational films during Bulldog Blocks. They also worked with the junior high to meet with eighth grade students to facilitate their transition to the high school. In March, the N.H.S. hosted a Read Across America event at the high school -- a marathon reading of *The Great Gatsby* complete with live performances in the auditorium, reading in the library, costumes, food, and games. Both staff and students took part in this successful event. The N.H.S. also welcomed our junior members to the organization in the spring. Despite the limitation of Covid, these new members have carried on many of our initiatives. The society has also begun new outreach programs. In the fall of 2020, we expanded our tutoring program to include all of the schools in our district. Students also reached out to local nursing homes during the holidays and sent cards to those people who have been so isolated during the pandemic. In order to foster community and positivity, the students started a rock painting campaign where students paint positive messages on rocks and leave them in places throughout the community thereby encouraging elementary school students to find these rocks and make rocks of their own. Members also created packets, complete with activities for elementary students to complete over vacation and sent these to our district schools. They are supporting and promoting the Book Dash campaign begun by our librarian, Allison Barker, this year to ensure access to books. Students are currently working with our school psychologist, Phil Alessi, to promote and host zoom events to help students de-stress during these difficult times. N.H.S. members have also started an Instagram page and maintain our Facebook page to promote our events.

### **Music Department**

During the 2019-2020 school year, the Jazz Band performed an October concert with the Tri-County Symphonic Band, and the Music Department had a great December Concert and successful performance trip to Faneuil Hall. The district Music Departments were even able to squeeze in the FORM Choral Concert before school was closed down. The Music Department had eight students accepted to the Southeast District Music Festival and two to the All-State Music Festival in Boston. In February 2020, the Jazz Band received a Silver rating at the MAJE Cape Cod Coastal Festival. During remote learning in the spring, several ensembles were able to put together virtual performances, culminating in a virtual Senior Farewell video, honoring the senior Music students.

### **Gender-Sexuality Alliance**

The ORRHS Gender-Sexuality Alliance and Writing Club hosted a very successful Hocus Pocus Movie Night in October, which raised funds for both clubs for field trips and activities. Students celebrated and raised awareness during GLSEN's Ally Week and on Transgender Day of Remembrance by handing out stickers and information. Students also worked with HS admin to create better signage around our gender-neutral bathroom and locker room. Students lead and attended DESE's Safe School regional meetings, which focused on mental health, education, and inclusive curriculum. The HS GSA collaborated with the Healthy Tri-Town Coalition and the JHS GSA for the Pronoun Project, which focused on creating pronoun pins, and would have culminated in a community screening of Gender Revolution (2017) directed by Katie Couric in the spring, and was unfortunately postponed due to COVID-19.

### **ORRHS Writing Club**

The ORRHS Writing Club, originally the Poetry Club, focused this year on developing creative writing skills each week with prompts and raising funds for a spring field trip to the Emily Dickinson Museum.

### **Student Council**

Although the 2019-2020 school year was unlike any other, the Old Rochester Student Council still managed to have a productive year. In September, Student Council held freshmen elections and conducted its first general board meeting. STUCO formed a TV subcommittee that worked with the technology department to learn the Mvix software and started utilizing our new digital signage that we purchased for the school. Clubs are now able to submit electronic posters to be added to the daily rotation, saving paper and time. On September 26th, STUCO hosted ORR's second annual Club Hub, where students were given the opportunity to explore all of the different clubs ORR has to offer. This provided an amazing opportunity for clubs to showcase themselves and for new students to become more involved in the school community. STUCO awarded \$350 to the clubs with the best overall presentation/booth. Once again, the feedback from club members, students, advisors, faculty and staff was overwhelmingly positive. STUCO collaborated with the Booster Club to purchase another Hydration Station, which was installed in the gym.

During the month of October, STUCO planned, organized and hosted the annual Homecoming dance and events. STUCO collaborated with the CSL club for Socktober, offering discounts on homecoming tickets for bringing in sock donations. Students participated in our fun spirit week through theme days and the always-popular pep rally and skits. On October 26th, over 600 students attended a space themed Homecoming dance in the cafeteria. During the dance, students used an innovative new selfie station made in conjunction with the Art Club.

On October 30th, 45 students attended the COPES rope course and team building day in Yarmouth Port. STUCO members had a rewarding day working together and pushing their personal limits on the ropes course and zip line while building valuable teamwork and leadership skills.

For the weekend before Veteran's Day, STUCO sponsored a trip to Bourne National Cemetery where students volunteered their time to help Operation Flags for Vets by planting over 60,000 flags by veterans' graves. STUCO donated \$1200 to the organization in honor of ORR alumni, PFC Becket Kiernan. STUCO also donated \$400 to the Racial Equity Student Coalition for All Hands and Hearts, a Hurricane Dorian relief charity.

During the holidays, all four classes worked together to raise over \$1300 for the Neediest Family Fund, which went back to families in our own community. As a thank you for the classes' commitment to community service, STUCO again hosted an ice cream social for everyone in the school the day before winter break. The class that raised the most money was also rewarded with hot chocolate prepared by the OR transition program students and funded by STUCO.

In response to the devastation of the Australian wildfires, STUCO conducted a 50/50 raffle and donated all proceeds to the Australian Red Cross.

In February, STUCO held another spirit week leading up to the annual Class Olympics. Classes enthusiastically cheered on their classmates as they competed in a variety of team building activities and contests and won money for their classes. Classes also participated in the Random Act of Kindness Week, with each class performing random acts of kindness throughout the week. Lockers displayed positive notes; cafeteria staff received succulents; bus drivers were provided with snacks, and new mechanical pencils were handed out to all students during the season when most pencils seem to mysteriously disappear. After a current student organized a school wide assembly, STUCO sent \$100 to Positive Action Against Chemical Addiction, an organization dedicated to helping those struggling with drug addiction.

STUCO continued to meet virtually during the Covid Lockdown. Board members set up a Go Fund Me to raise money for a local food pantry and raised over \$500. In May, STUCO collected thank you messages from the student body and shared them electronically with teachers and staff in honor of Teacher Appreciation Week.

Despite the new online meeting format, STUCO successfully ran E-Board elections, three class elections, and SERSAC elections using video speeches and websites created by the leadership team. The group also met to make changes to the constitution, which provided more leadership opportunities for students.

At the end of the year, STUCO decided to double the number of scholarships that it usually presents and honored four 2020 graduating seniors with individual \$500 Unsung Hero Awards. STUCO also donated \$750 to the graduating class for their efforts to create alternative senior events during the pandemic.

During the 2019-2020 school year, Student Council was once again able to fund a number of valuable school activities, projects and programs including:

- Tea and supplies for optimized student zen (\$100-Tea Club)
- A Hocus Pocus movie night fundraiser (\$350-GSA & Writing Club)

- Brushes, paint, and canvas supplies (\$500-Art Club)
- A bank robbery themed escape room event (\$300-Conspiracy Club)
- Winter Blues Film Festival (\$300)

All in all, Student Council worked through a challenging school year and remained committed to building a positive school climate.

## **DECA**

DECA had a unique but rewarding experience participating in a virtual version of DECA this year. Weekly meetings are held on Friday afternoons via Zoom, and attended by as many as 60 students from Grades 7-12. These meetings are used to conduct practice role-plays, discuss upcoming events, and brainstorm fundraising ideas. Students have just finished participating in Districts, which is a competition held between nearby schools in Southeastern Massachusetts. The competitions have consisted of two major parts, a role-play and a written test. Role-plays are events in which students are tasked with a business-related scenario that they must creatively resolve using collaboration, communication, and critical-thinking skills. The written portion of the competition consists of a series of multiple-choice questions relating to specific topics, such as business management, marketing, or accounting. While students have not been able to compete face-to-face this year, they have certainly learned many valuable skills, including advanced technology usage, time management, and how to create an effective virtual presentation. Students who excel in their events will even have the opportunity to attend a virtual statewide competition in the upcoming months. 34 of our students placed in Districts, and we will be holding an awards ceremony in the cafeteria this upcoming Friday to celebrate this achievement.

## **Community Services Learning**

The 2020-21 school year began with a different format, meeting virtually, but with the same excitement, energy, and commitment to give back to our Tri-Town community. CSL has continued during the Pandemic while following all safety precautions and protocols with the yearly volunteer opportunities and even added new ones so students can participate on their own, as well as in-group projects. The club meets once a week virtually after school. The CSL co-advisors, Karen Browning and Andrea Moniz help to advise students as they take on student leadership roles on various community service projects that are new and on-going projects. Once again this year, under the leadership of two students, the CSL Club collected pairs of socks for their “SOCKTOBER” event in October. It was another huge success and the socks were donated to The Women’s Center in New Bedford. As October came to a close, the CSL Club turned its focus to our December group event in collaboration with Toys for Tots called “Stuff a Cruiser”. This year CSL was able to collect even more toys for local children than previous years! We appreciate the generosity of our Tri-Town residents for making this our most successful year yet! We would like to especially recognize Turks Restaurant for donating over \$500 in toys for our event! Among these group volunteer activities, CSL has had several individual volunteer opportunities brought to the group by students and led by students, such as volunteering on weekends at Damien’s Pantry. The CSL Club also has been informed of opportunities brought from the community, such as with the Mattapoisett Land Trust and Sippican Land Trust properties and at the Mattapoisett Library. Moving forward the CSL Club, under the

leadership of student leaders, is taking part in letter writing for children in hospitals with an effort called “Cards for Hospitalized Kids” at several times over the next few months. There are other student leaders also taking the initiative to write letters to one of our own faculty members, Micah Kidney, of the math department, who is serving our country for the next year abroad. The club will plan a beach clean up in the spring and we will cap off our successful year in May of 2021, where the club will honor students who have submitted their community service hours that have earned them the “President’s Volunteer Service Award”, an award where students earn either a gold, silver, or bronze medal depending on the amount of their volunteer hours along with a signed letter from the President of the United States thanking them for their community service.

Once again, the Old Rochester Regional High School proved to be first-class and continued the school’s history of excellence. Students and staff congratulated Math teacher Fran Guilbert and Nurse Kim Corazzini on their retirements after long and storied careers at Old Rochester.

Respectfully submitted,

Michael Devoll  
Principal

**REPORT OF THE  
Upper Cape Cod Regional Technical School**

To the citizens of Bourne, Falmouth, Marion, Sandwich, and Wareham:

ELECTED SCHOOL COMMITTEE REPRESENTATIVES:

TOWN OF BOURNE	MARY CROOK
	DAVID P. SAMPSON
TOWN OF FALMOUTH	THOMAS CORRIVEAU, VICE-CHAIR
	MARYANN SMITH
TOWN OF MARION	CHRISTINE MARCOLINI
TOWN OF SANDWICH	MICHAEL DEGAN, TREASURER
	STEVEN CHALKE
TOWN OF WAREHAM	DOMINIC CAMMARANO
	ROBERT FICHTENMAYER, CHAIR
SUPERINTENDENT	ROGER D. FORGET

Upper Cape Cod Regional Technical School foundation enrollment, as of October 1, 2019 consisted of one hundred seventy (170) students from Bourne, one hundred sixty-two (162) from Falmouth, fourteen (14) from Marion, one hundred eleven (111) from Sandwich, and two hundred fifty-one (251) from Wareham. The school also has a self-sufficient adult Licensed Practical Nursing program with both full-time and part-time day and evening programs available to students. Due to the success of quality career and technical education garnering praise on regional, statewide, and national, fronts, the interest in attending Upper Cape Tech is increasing while the number of school age children is decreasing.

Upper Cape Tech continues to expand its offerings for adults and other out of school individuals. Adult tuition students, specialized afternoon and evening occupational programs, and summer programs are additional to the 708-pupil school day enrollment. Upper Cape Tech continues to offer valuable cost-effective services to its communities via its day and evening programs. During this fiscal year 1,028 adult students were enrolled in evening courses.

Upper Cape Tech added a 15<sup>th</sup> program to its technical offerings to students this year. Veterinary Science was offered to incoming students last fall proving to be a popular shop choice across the freshman class. Construction of a new out building to house the program was recently completed. The state-of-the-art center includes dog grooming stations, examination rooms, and x-ray areas. Upon graduation, Veterinary Science students will be able to pursue post-secondary education to become a veterinarian or they may choose to enter the workforce as a veterinary technician, an animal care assistant, or a canine trainer.

In addition to Veterinary Science, students may choose Automotive Collision Repair, Automotive Technology, Carpentry, Cosmetology, Culinary Arts, Electrical, Engineering Technology, Environmental Technology, Health Technology, Horticulture, HVAC, Information Technology, Marine Technology, or Plumbing & Heating.

Another unique offering for students at Upper Cape Tech is the cooperative employment program which allows qualifying juniors and seniors to work for employers in their trades on alternating weeks during their shop time. In FY2020, 153 students had cooperative employment placements earning \$520,556.00 collectively. Unfortunately, the earnings figure is down by just over \$200,000.00 from FY19 due to COVID-19.

Upper Cape Tech staff and students are able to undertake much of the maintenance of the building, along with monitoring the facility's complex ventilation and heating, saving thousands of dollars in outside labor costs. Additionally, significant savings were again realized this past fiscal year as a result of the solar canopies in the staff and student parking lot. The canopies resulted in nearly \$65,000 in net metering credits in fiscal year 2020. The district also earned revenues of over \$27,000 as a result of a power purchase agreement with Future Generation Wind.

Although the ongoing pandemic brought the 2019-2020 school year to an abrupt halt with regard to in-person learning, athletics, and extra-curricular and senior class activities, we extend sincere congratulations to the Class of 2020. We applaud the maturity, fortitude, and positive attitude with which they faced the challenges presented to them in their final year at Upper Cape Tech.

The Regional School District Committee also extends its appreciation to the many advisory boards that assist us in developing and maintaining educational programs, various town and school officials who support our efforts, and school staff members. It is the combined effort of all of these individuals that has enabled the success of the school and its graduates for the benefit of our communities. We look forward to your continued support.

Respectfully submitted,

Roger D. Forget  
Superintendent

**Report of the  
MARION SCHOLARSHIP/EDUCATION FUND COMMITTEE**

To the Honorable Board of Selectmen:

The Scholarship Education Fund was established under Massachusetts General Laws, Chapter 60, Section 3C and adopted by Town Meeting in April 1994, and, since that time, has made scholarship awards to ninety-two Marion residents based on their financial need, character, scholastic record, extracurricular activities and involvement in community affairs.

The Marion Scholarship Education Fund Committee is very pleased to announce last year's recipient of the local Marion scholarship. In May, 2019, we awarded one \$750 scholarship to Marion resident Mia Quinlan, from Old Rochester Regional High School, to pursue education beyond the secondary school level for the academic year 2019-2020. We had many outstanding applicants and the decision was extremely difficult.

In addition to providing scholarships, the Education portion of the fund provides supplemental funding for local educational needs. After discussions with Ms. Marla Sorois, Sippican School principal, the amount of \$3,020 was awarded to Sippican School for the purchase of a Touchview Interactive Panel, fixed stand and MacBook adapter. This device will prove invaluable for both in-person and remote learning.

Awards are made possible through the generosity of Marion taxpayers (residents and nonresidents) who have contributed to the scholarship and Education funds. Due to Covid restrictions, many avenues of fund raising were not available this year. We are grateful to the many people who donated when they received a request in their tax bill. Contributions in any amount are always appreciated and are fully tax deductible.

Respectfully submitted,

Scholarship/Education Committee

Marthe Soden, Chairman  
Steve Cook  
Julie LeFavor  
Michael Nelson

## TOWN OF MARION

### Annual Town Meeting Minutes

### June 22, 2020

The Annual Town Meeting was called to order by Moderator Brad Gordon at 6:45p.m. on June 22, 2020 at the Sippican School Auditorium. Invocation was by Pastor MaryAnn Purtill of the First Congregational Church of Marion. Due to the COVID-19 Pandemic, the meeting was postponed from May 11, 2020 until June 22, 2020. Social Distancing requirements meant the meeting was broadcast from the main auditorium to the gymnasium, cafeteria and 3 over-flow rooms with the necessary tellers and deputized moderators sworn. Tellers sworn were Gary Taylor, Margaret Malkowski, Tom Friedman, Michelle Oullette Smith and Phyllis Partridge. Deputized moderators sworn were Donna Hemphill, Vin Malkowski, Paul Naiman, Bob Partridge and Sandy Smith. The Moderator noted the presence of a quorum and reported that the Warrant for the meeting had been posted and returned in accordance with the law.

**Article 1:** Motion was made and seconded that the Town vote to compensate its elected officials, effective July 1, 2020 as follows:

Board of Selectmen, each member, per annum	\$ 4,902
Board of Assessors, each member, per annum	\$ 4,839
Board of Health, each member, per annum	\$ 1,866
Town Clerk, per annum	\$64,666
Moderator, for Annual Meeting	\$ 245
per Special Town Meeting	\$ 81

*Motion declared carried by voice vote at 6:54pm*

**Article 2:** Motion was made and seconded that the Town vote to raise and appropriate the sum of \$23,217,637 to pay interest and maturing debt and for the charges, expenses and overlays of various Town departments and for a reserve fund for the twelve-month period beginning July 1, 2020 and, in addition, the sum of \$5,000 be transferred from wetlands protection fees to Administrative Services, account #159; and the sum of \$4,000 be transferred from the dog fund to animal control, account #292; and the sum of \$5,100 be transferred from the State Aid to Library account to Elizabeth Taber Library, account #610; and the sum of \$220,000 be transferred from the waterways account to the Marine Resources account, #295; and the sum of \$5,390 from Fund Balance for Future Debt-Premiums; and the sum of \$100,000 be transferred from the Overlay Reserve, the sum of \$410,706 for indirect costs be transferred from the water enterprise fund, the sum of \$454,695 for indirect costs be transferred from the sewer enterprise fund, the sum of \$350,000 be transferred from other available funds in the treasury (free cash) to the operating budget; and, in addition, the Town accept the Old Rochester Regional School District’s operating budget of \$4,743,800 and to accept the Old Rochester Regional School District’s capital budget of \$212,223, as certified by the ORR School Committee on March 3, 2020; and, in addition, the Town accept the Upper Cape Cod Regional Technical School’s operating budget of \$250,027 and the Upper Cape Cod Regional Technical School’s capital budget of \$24,515, as certified by the Upper Cape Cod Regional Technical School on March 13, 2020 for the fiscal year beginning July 1, 2020 the total operating budget thus to be \$24,772,528, with items as follows:

914	Group insurance	1,753,833
940	Town insurance	688,550

*Motion declared carried by voice vote at 7:26pm*

**Article 3:** Motion was made and seconded that the Town vote to appropriate the following sums for the water enterprise fund:

Salaries and Expenses	\$1,036,758
Reserve Fund	60,000
Debt	965,178
Indirect costs	<u>410,706</u>
Total	\$2,472,642

and that the sum of \$2,172,642 be raised from departmental receipts and \$300,000 transferred from water retained earnings.

*Motion declared carried by voice vote at 7:34pm*

**Article 4:** Motion was made and seconded that the Town vote to appropriate the following sums for the sewer enterprise fund:

Salaries and expenses	\$1,066,776
Reserve Fund	60,000
Debt	1,557,603
Indirect costs	<u>454,695</u>
Total	3,139,074

and that the sum of \$2,939,074 be raised from departmental receipts and \$200,000 be transferred from sewer retained earnings.

*Motion declared carried by voice vote at 7:37pm*

**Article 5:** Motion was made and seconded that the Town vote to transfer from the Overlay Surplus Account the sum of \$25,000 to be used by the Board of Assessors for the revaluation of real and personal property as mandated by the Department of Revenue.

*Motion declared carried by voice vote at 7:39pm*

**Article 6:** Motion was made and seconded that the Town vote to raise and appropriate or transfer from available funds in the Treasury (Free Cash) the sum of \$25,000 to the compensated absence account for the purpose of funding accrued benefits for retiring employees.

*Motion declared carried by voice vote at 7:41pm*

**Article 7:** Motion was made and seconded that the Town vote to raise and appropriate or transfer from available funds in the Treasury (Free Cash) the sum of \$50,000 to be expended under the direction of the Board of Selectmen for costs related to ongoing capped landfill post-closure monitoring activities.

*Motion declared carried by voice vote at 7:44pm*

**Article 8:** Motion was made and seconded that the Town vote to raise and appropriate or transfer from available funds in the Treasury (Free Cash) the sum of \$50,000 to be expended by the Facilities Department to complete building maintenance projects on municipal facilities.

*Motion declared carried by voice vote at 7:47pm*

**Article 9:** Motion was made and seconded that the Town vote to raise and appropriate or transfer from available funds in the Treasury the sum of \$50,000 to fund the necessary engineering, design and replacement of damaged Fire Hydrants, and that to meet this appropriation, the sum of \$50,000 be transferred from Water Enterprise Retained Earnings.

*Motion declared carried by voice vote at 7:51pm*

**Article 10:** Motion was made and seconded that the Town vote to raise and appropriate or transfer from available funds in the Treasury (Free Cash) the sum of \$75,000 to be expended by the Department of Public Works to complete a Feasibility Study and Preliminary Design on the Creek Road Sewer Station.

*Motion declared carried by voice vote at 7:52pm*

**Article 11:** Motion was made and seconded that the Town vote to raise and appropriate or transfer from available funds in the Treasury (Free Cash) the sum of \$23,500 to be expended by the Facilities Department to replace the Community Center Furnace.

*Motion declared carried by voice vote at pm*

**Article 12:** Motion was made and seconded that the Town vote to raise and appropriate or transfer from available funds in the Treasury the sum of \$47,000 to fund the purchase of new Emergency Generators at Perry Hill and Wolf Island, and that to meet this appropriation, the sum of \$47,000 be transferred from Water Enterprise Retained Earnings.

*Motion declared carried by voice vote at 7:55pm*

**Article 13:** Motion was made and seconded that the Town vote to raise and appropriate or transfer from available funds in the Treasury (Free Cash) the sum of \$150,000 to be expended by the Department of Public Works for design, engineering and construction of a new Department of Public Works Complex.

Motion was made and seconded to move the question

*Motion to move the question declared failed by voice vote at 8:10pm*

*Motion declared carried by voice vote at 8:18pm*

**Article 14:** Motion was made and seconded that the Town vote to raise and appropriate or transfer from available funds in the Treasury the sum of \$190,000 to fund the design, engineering and construction associated with the towns Inflow and Infiltration Mitigation Plan, and that to meet this appropriation, the sum of \$190,000 be transferred from operations budget of the Sewer Enterprise Funds.

Motion was made and seconded to move the question

*Motion to move the question declared carried by voice vote at 8:30pm*

*Motion declared carried by voice vote at 8:30pm*

**Article 15:** Motion was made and seconded that the Town vote to raise and appropriate or transfer from available funds in the Treasury (Free Cash) the sum of \$150,000 to be expended by the Department of Public Works for construction of a new emergency egress for the Sippican Elementary School.

Motion was made and seconded to move the question

*Motion to move the question declared carried by voice vote at 8:38pm*

*Motion declared carried by voice vote at 8:40pm*

**Article 16:** Motion was made and seconded that the Town vote to raise and appropriate or transfer from available funds in the Treasury (Free Cash) the sum of \$24,000 to be expended by the Department of Public Works for design, engineering and construction of Community Center Sewer Improvements.

*Motion declared carried by voice vote at 8:44pm*

**Article 17:** Motion was made and seconded that the Town vote to raise and appropriate or transfer from available funds in the Treasury (Free Cash) the sum of \$39,000 to be

expended by the Facilities Department for the design and construction of new outdoor facilities and installation of epoxy flooring at the Silvershell Beach bath house.

*Motion declared carried by voice vote at 8:46pm*

**Article 18:** Motion was made and seconded that the Town vote to raise and appropriate or transfer from available funds in the Treasury (Free Cash) the sum of \$55,000 to be expended by the Fire Department to purchase a new Power Cot lift.

*Motion declared carried by voice vote at 8:50pm*

**Article 19:** Motion was made and seconded that the Town vote to raise and appropriate or transfer from available funds in the Treasury (Free Cash) the sum of \$100,000 to be expended by the Department of Public Works to purchase a side-arm mower.

*Motion declared carried by voice vote at 8:53pm*

**Article 20:** Motion was made and seconded that the Town vote to raise and appropriate or transfer from available funds in the Treasury (Free Cash) the sum of \$21,000 to be expended by the Police Department to purchase new portable radios.

*Motion declared carried by voice vote at 8:54pm*

**Article 21:** Motion was made and seconded that the Town vote to raise and appropriate or transfer from available funds in the Treasury (Free Cash) the sum of \$25,200 to be expended by the Department of Public Works for design, engineering and construction of Fire Station #1 Sewer Improvements.

*Motion declared carried by voice vote at 8:55pm*

State Road funds, Chapter 53B and Chapter 150 (commonly known as Chapter 90 funds)

*Motion declared carried by voice vote at 10:14pm*

**Article 54:** Motion was made and seconded that the Town vote to authorize the Board of Selectmen to institute, defend, or compromise suits of law.

*Motion declared carried by voice vote at 10:15pm*

**Article 55:** Motion was made and seconded that the Town vote to authorize the Board of Selectmen to sell any article belonging to the Town, provided the Town has no further use for the same.

*Motion declared carried by voice vote at 10:16pm*

**Article 56:** Motion was made and seconded that the Town vote to authorize the Board of Selectmen to sell or transfer any taxation possession property held by the Town, pursuant to General Laws, Chapter 60, Section 77, after the Board of Selectmen has notified the Planning Board, Open Space Acquisition Commission, Conservation Commission, and the Affordable Housing Trust of the availability of such land and said agencies may report in writing within twenty (20) days to the Board of Selectmen any recommendations that they may have with regard to the disposition of said land.

*Motion declared carried by voice vote at 10:17pm*

**Article 57:** Motion was made and seconded that the Town consider the reports of the Town officers and committees and act thereon.

*Motion declared carried by voice vote at 10:17pm*

**Article 58:** Motion was made and seconded that the Town vote to adjourn the annual Town Meeting until 9:00 a.m. on Friday June 26, 2020 at which time we shall elect all necessary officers for the ensuing year.

*Motion declared carried by voice vote at 10:20pm*

**TOWN OF MARION**  
**Special Town Meeting Minutes**

**November 5, 2020**

The Special Town Meeting was called to order by Moderator Brad Gordon at 6:45p.m. on November 5, 2020 at the Old Rochester Regional High School Auditorium (135 Marion Road, Mattapoisett, MA). The meeting was held at this location in order to follow required social distancing requirements due to the COVID-19 Virus Pandemic. Tellers sworn were Donna and Marleigh Hemphill. The Moderator noted the presence of a quorum and reported that the Warrant for the meeting had been posted and returned in accordance with the law.

**Article 1:** Motion was made and seconded that the Town vote to transfer from available funds in the Waterways Account, the sum of twenty two thousand (\$21,522.45) dollars to fund an outboard engine for one of its patrol boats, said funds to be expended under the direction of the Harbormaster.

*Motion declared carried at 6:54pm*

**Article 2:** Motion was made and seconded that the Town vote to expend one hundred twelve thousand three hundred sixty three dollars and ninety one cents (\$112,363.91) to supplement Article 9 of the 2013 Annual Town Meeting to fund renovation of the Marion Town House, and, that to meet this expenditure, a combined total of \$112,363.91 shall be transferred from the appropriation authorized by Article 17 (\$18,800.66) and Article 19 (\$1,300.00) of the 2014 Annual Town Meeting, Article S3 (\$4,257.88) of 2017 Special Town Meeting, Article 17 (\$17,775.00) of the 2015 Annual Town Meeting, Article 23 (\$3,391.04) of the 2018 Annual Town Meeting, Article 13 (\$8,000.00), 22 (\$16,279.85) and 29 (\$1,100) of the 2019 Annual Town Meeting and Article 18 (\$41,449.48) of the 2020 Annual Town Meeting said amount of \$112,363.91 to be spent for said purpose under the direction of the Facilities Director.

*Motion declared carried at 6:59pm*

**Article 3:** Motion was made and seconded that the Town vote to act upon the recommendation of the Carver, Marion, Wareham Regional Refuse Disposal District Committee to approve withdrawal of the Town of Marion from the Carver Marion Wareham Regional Refuse Disposal District, on terms as printed in the warrant.

*Motion declared carried at 7:03pm*

**Article 4:** Motion was made and seconded that the Town vote to accept title to the real property identified as the Benson Brook Transfer Station and as shown on Marion Assessor's Map 24, Lot 9C, from the Carver Marion Wareham Regional Refuse Disposal District effective January 1, 2021.

*Motion declared carried at 7:08pm*

**Article 5:** Motion was made and seconded that the Town vote to authorize the Open Space Acquisition Commission to purchase, at a cost of \$225,000.00, for conservation and passive recreation purposes, a Conservation Restriction, as defined by G.L. c.184, ss.31-32, encumbering 33.7 acres, more or less, on a portion of certain property generally identified as Marion Assessors Map 26, Lots 6, 7 and 18, that said Conservation Restriction be conveyed to the town under the provisions of Massachusetts General Laws Chapter 40, section 8C and Chapter 187 of the Acts and Resolves of 1998.

Motion was made and seconded to move the question.

*Motion declared failed at 7:39pm*

Motion was made and seconded to table the article.

*Motion declared failed without a 2/3 majority at 7:50pm (18 Aye and 49 Nay)*

*Motion declared carried at 8:08pm*

**Article 6:** Motion was made and seconded that the Town vote to authorize the Open Space Acquisition Commission to accept as a gift for conservation and passive recreation purposes, a Conservation Restriction encumbering 1.3 acres, more or less, on a portion of certain property, as shown on Assessor's lot 16, on Map 26, that said Conservation Restriction be conveyed to the town under the provisions of Massachusetts General Laws Chapter 40, section 8C and Chapter 187 of the Acts and Resolves of 1998.

*Motion declared carried at 8:10pm*

**Article 7:** Motion was made and seconded that the Town vote to authorize the Open Space Acquisition Commission to accept as a gift for conservation and passive recreation purposes, a Conservation Restriction encumbering 0.2 acres, more or less, on a portion of certain property, as shown on Assessor's lot 17, on Map 26, that said Conservation Restriction be conveyed to the town under the provisions of Massachusetts General Laws Chapter 40, section 8C and Chapter 187 of the Acts and Resolves of 1998.

*Motion declared carried at 8:11pm*

**Article 8:** Motion was made and seconded that the Town vote to authorize the Open Space Acquisition Commission to accept as a gift for conservation and passive recreation purposes, a Conservation Restriction encumbering 7.8 acres, more or less, on a portion of certain properties, as shown on Assessor's lots 5D and 5E, on Map 26, that said Conservation Restriction be conveyed to the town under the provisions of Massachusetts General Laws Chapter 40, section 8C and Chapter 187 of the Acts and Resolves of 1998.

*Motion declared carried at 8:13pm*

**Article 9:** Motion was made and seconded that the Town vote to act upon the recommendation of the Board of Selectmen to take all necessary steps to impose a perpetual Preservation Restriction pursuant to G.L .c.184, ss.31-32 on the portion of the Marion Town House referred to as "the Annex" and constructed on or about 1890.

*Motion declared carried by a 2/3 majority at 8:15pm*

*Meeting adjourned at 8:24pm*

Respectfully submitted by:

Elizabeth L.N. Magauran, Town Clerk

## Report of the TOWN CLERK

To the Honorable Selectmen:

At the close of the census, it was announced that the figures for the 2020 census were available. Total year round population as of June 5, 2020 was 5312. The year round population does not include “inactive” voters or seasonal residents (793). The breakdown is as follows:

<i>Under age 5 years</i>	<i>77</i>
<i>Age 5 – 17 years</i>	<i>590</i>
<i>Age 18 – 59 years</i>	<i>2669</i>
<i>Age 60 years and over</i>	<i>2038</i>
<i>Unknown DOB</i>	<i>76</i>
<i>Corrupt Record</i>	<i>1</i>
<i>Inactive Voters</i>	<i>140</i>

The following are (year round) population figures reported over the last five years.

<i>Year</i>	<i>Population</i>
2015	5116
2016	4753
2017	5068
2018	
2019	

### *Voter Registration*

As of June 5, 2020: Total **4138** (Active: Inactive: 140)
